CHANGE IN EMPIRE FOREIGN POLICY URGED

CONTRACT FOR CRYSTAL GARDEN TO BE AWARDED

Vice-President of C.P.R. Line on Visit Here To-day
Building Will Cost More Than Contract With City Requires

An immediate start on the Amusement Centre contract is forecast by D. C. Coleman, vice-president of the Canadian Pacific Railway Company, who arrived in the city this morning accompanied by Mrs. Coleman, and George W. Allen, of Winnipeg.

Speaking of the Crystal Garden Mr. Coleman said:
"The Canadian Pacific will commence work on the Amusement Centre ahead of the time stipulated in the contract, and proposes to erect a building which will cost considerably more than the sum mentioned in the contract."

"Mr. Gardom tells me that he will be in a position to let the contract within forty-eight hours, and it is anticipated that work will start within a few days."

Mr. Coleman came from Vancouver, having returned there yesterday from a visit to Seattle, where he went on waterfront matters pertaining to the company.

He announced that Captain J. V. Troup, manager of the B.C. Coast Service, has sailed for Canada on the liner Empress of Scotland, and will be in a position to report progress on the new Princess on his arrival. Cable advice stated that the work was progressing satisfactorily, and that the Princess Kathleen would be handed over to the company on December 1. Indications are that the new ships will be a credit to the British Columbia coast.

It is understood that Mr. Coleman desires to meet the Attorney-General while in Victoria in connection with the steps taken to unravel the mysterious explosion at Farron on the Kettle Valley Railway on October 23, when nine persons were killed.

PREPARE TO TAKE CIVIC VOTE IN FOUR WEEKS' TIME

Court of Revision on List Has Been Set For November 20

Anticipatory of the forthcoming municipal poll, printing of the voters' list for the new term is proceeding, and will be revised at a court of revision set for November 20. The names have not yet been tallied, but in the aggregate it is not expected there will be much change from the current list, which has 11,789 names.

The poll will be held on Thursday, December 11, nominations being set for December 1. It will be noticed that for a second time both events are set for a Thursday, the original dates being the first Wednesday in December for nomination and the second Wednesday for the poll, but when the experiment was made with Wednesday polling it did not work, and the alteration was made by legislative enactment two years ago, so that Thursday was given a trial twelve months ago, and no one apparently desires a reversion to Wednesday.

SHOULD BE LARGE POLL
The members of the council who are again candidates, as well as the other candidates who have announced themselves are busily engaged in their canvass for support. It is expected that with the possibility of voting on such a universal subject as daylight saving, and the assurance of a mayoralty contest, it is expected there will be much more interest shown than was the case twelve months ago.

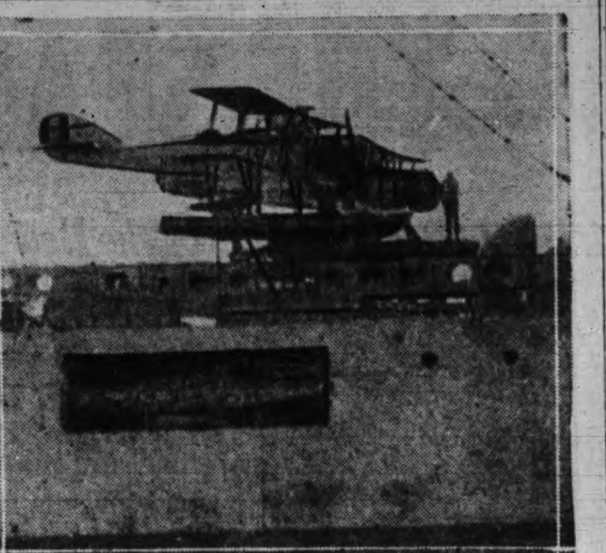

So far there has been a singular lack of interest with regard to the school board election, where three candidates will be required, but after the monthly meeting it is expected that more interest will be aroused, as it is thought probable that one of the three retiring members may not be re-elected. Of late years it has unfortunately been difficult to arouse interest in this branch of municipal government, while for the officers or aldermen and police commissioner there is always competition.

MR. SHANKS OUT
As announced in The Times on his return from the North, J. A. Shanks will again be in the field for election as alderman. He states that he proposes styling himself "The People's Candidate."

Electricity Killed Three Men in Texas

Conroe, Texas, Nov. 12.—Three men were killed to-day and a fourth severely burned when they came in contact with a 2,500-volt wire which had fallen across a sidewalk.

SEARCH IS MADE FOR MISSING VOYAGERS

Scout seaplanes, operating from the United States cruiser Trenton, are searching in the Atlantic Ocean for the forty-foot ketch Lief Ericsson, in which William W. Nutting, New York yachtsman, and three companions left Norway for Bottle Harbor, Labrador, at which port they are seven weeks overdue. The Trenton and her planes were sent out from New York. Above is a view of one of the planes on the deck of the cruiser. At the right is a picture of Captain Edward C. Kalbfus, commander of the Trenton.

Over Forty Stocks At New High Levels In New York To-day

New York, Nov. 12.—An enormous amount of profit taking in the lead and railroad and industrial issues failed to-day to check the excited trading in stocks on the exchange here, total sales running over 2,000,000 shares for the fourth consecutive full session. More than two-score issues attained new peak prices for the year.

SESSION OPENED BY ITALIAN CHAMBER

Rome, Nov. 12.—The Italian Chamber of Deputies opened to-day with the participation of 450 deputies and in the presence of all of the leading parliamentarians of the nation, including former Premiers Giolitti, Boselli, Luzzatti, Bonomi, Orlando and Salandra.

Rev. Dr. I. Warner Died in Ontario

St. Thomas, Ont., Nov. 12.—Rev. Robert I. Warner, M.A., D.D., "Father of the Elks," died here last night. Dr. Warner was appointed to the staff of the college in 1881.

Poisoned Cider Caused Deaths of Ten in Maryland

Lynchburg, Va., Nov. 12.—Bates M. Collins, of the New York City Lodge, one of the Elks, died to-day, bringing the total number of victims of poisoned cider served at the Elks' National Home at Bedford, Md., to ten. Sixteen are in the hospital, four of them in a serious condition.

C.P.R. Buys Land In Nova Scotia to Start Farm Group

Montreal, Nov. 12.—A bloc of agricultural land sufficient to support about 200 families has been purchased by the Canadian Pacific Railway in Digby County, N.S., and will be colonized, beginning next Spring, under easy financial arrangements.

Advance of Education in Canada Steadily Reduces Illiteracy, Says Ottawa

Ottawa, Nov. 12.—Illiteracy is steadily declining throughout Canada, according to information compiled by the Dominion Bureau of Statistics. This improvement in the educational status of the population five years of age and over during the last twenty years is indicated by the decrease in the percentage of illiterates from decade to decade. In the last census, of the total population five years of age and over 9.35 per cent. were reported as being unable to read and write, as compared with 19.56 per cent. in 1911 and 14.35 per cent. in 1901.

The effect of residence in rural and urban localities on the educational standing of the population is indicated by the fact that 6.48 per cent. of Canada's rural population ten years old and over are illiterate, as compared with 2.66 per cent. in urban centres.

B.C. SURPLUS OF REVENUE OVER EXPENDITURE TOTALS \$1,671,299 FOR HALF YEAR

A surplus of revenue over expenditure amounting to \$1,671,299 is shown by the financial statement for the first six months of the current fiscal year, which was presented to the Legislature this afternoon by Hon. J. D. MacLean, Minister of Finance.

Receipts from all sources are coming in well, and the Minister states that there is every reason to believe that the estimated income for the twelve months will be realized if not exceeded. On the other hand, expenditures are seen to be thoroughly controlled and the total for the year will apparently be well within the estimates.

The revenue for the six months ended September 30 last was \$10,528,237.57. This is \$382,000 better than the collections for the first half of last fiscal year. An outstanding feature of the returns is that income and personal property taxes have brought in \$142,497 more than was anticipated for the full year. This is an indication of large earnings throughout the Province and bears testimony to the efficient operation of the Department of Finance.

The expenditures for the six months were \$8,856,939. The estimated revenue for the full year, as made last session, was \$18,359,216, and the estimated expenditure \$19,236,413.

CHARGE BROUGHT TO-DAY AGAINST VANCOUVER LAWYER IN QUADRA LIQUOR CASE IN SAN FRANCISCO

San Francisco, Nov. 12.—F. R. Anderson, a prominent attorney of Vancouver, B.C., was arrested here to-day and charged with violation of the Volstead Act in connection with the recent seizure of the Canadian steamer Quadra by the United States coastguard cutter Shawnee off San Francisco. The Quadra, which was said by the prohibition enforcement officers to have had liquor aboard valued at \$300,000, was brought into the harbor of San Francisco as a prize.

Disposition of the Quadra and her crew lies with the Federal grand jury here. Investigation is being made of the point raised by the defence that the Quadra was seized off the Esquimaux Islands and that these islands have never belonged to the United States and can not properly be termed as being in territorial waters.

Anderson was booked at the county jail and later released on \$5,000 bail. He said he had nothing to do with the operations of the Quadra.

WARRANT FOR ANOTHER

The arresting officers announced that a United States commissioner's warrant had been issued to-day against Russell Whitelaw, said to be a wealthy resident of Vancouver, in connection with the activities of the Quadra, but an all-night search failed to reveal any trace of Whitelaw in the city.

Upon the failure of Whitelaw to appear at his hotel, Alti Onda, hotel of the intelligence department, left for Los Angeles to continue the search there.

PAPERS SEIZED

The warrants of arrest were applied for by Ottawa and United States District Attorney Sterling Carr. Papers found on Anderson were said by the arresting officers to be "important" and their contents are being held secret.

The arrest of Anderson marked the final session, according to present plans, of the federal jury which is considering the case of the Quadra and other sensational matters relating to rum running and smuggling on the Pacific. It is possible the jury will return its indictments to-day.

ILLINOIS OFFICIAL IS FACING CHARGE OF COUNTERFEITING

Chicago, Nov. 12.—Ben Newman, assistant state fire marshal, charged in a federal warrant with counterfeiting, and Thomas Boyle, brother of Mike Boyle, union official, were arrested last night by detectives making a charge raid on an apartment in the hope of developing a clue to the slayers of Dion O'Bannion, gang leader, shot to death Monday.

Newmark has been hunted for two days in connection with a \$500,000 counterfeit postal savings stamp plot.

FIVE-YEAR TERM FOR NARCOTIC PEDDLER

Toronto, Nov. 12.—Declaring the only way to stop the increasing traffic in narcotic drugs was to impose "real penalties" on the peddlers, Judge Phipps, O'Connell yesterday sent Frank Blank, convicted of selling morphine to a policeman, to the penitentiary for five years and imposed a fine of \$200 and costs, with the alternative of six months more in jail.

NEW YORK LEADERS MAKING PLANS FOR CITY OF 20,000,000

Cambridge, Mass., Nov. 12.—New York still is in the making and is planning for a population of 20,000,000 persons in 1975, and has charts of transportation and building development already worked out on that basis, Thomas Adams, general director of the plan of New York and its environs told the National Municipal League yesterday.

FUAD HOPES FOR NEW NEGOTIATIONS WITH GREAT BRITAIN

Cairo, Nov. 12.—King Fuad, in the address from the throne on the occasion of the opening to-day of the Egyptian Parliament, declared that while the recent visit of Premier Said Zaitout to Great Britain had not resulted in the beginning of new negotiations, the Egyptian Government had full confidence this eventually would be the result.

"We shall reach our goal," he said, "by virtue of the strength of right, of the union of the people, of their attachment to the throne and of the solidarity of all the safeguards of our rights in the parts of the Valley of the Nile, without admitting or recognizing any act likely to prejudice them."

P.G.E. INQUIRY COST B.C. \$50,037, HOUSE IS TOLD

Cost of Mr. Justice Gallihier's Royal Commission, which inquired into Pacific Great Eastern Railway matters last Spring was \$50,037.05, according to information tabled in the Legislature by Attorney-General Manson.

S. S. Taylor, K.C., chief government counsel, was paid \$13,400; Douglas Armour, K.C., and Dugald Donaghy, the other government counsel, \$5,600 each. The cost of printing the report was \$3,785.

Mr. Manson explains that Mr. Taylor's submitted bill was for \$22,500, but that he had the bill revised by a taxing officer and reduced to the figure recorded above. Mr. Armour's account was for \$10,500 and Mr. Donaghy's for \$10,378.80.

EXPLORERS IN ARCTIC MAY BE FORCED TO LEAVE SHIP MAUD

Christiania, Nov. 12.—The Norwegian explorer, Otto Sverdrup, to-day told The Berlingske Tidende that the latest message he had received from Roald Amundsen's exploration ship, the Maud, was "unfavorable." He expressed the fear that the plan to drift past the North Pole in the Arctic ice floes would have to be given up.

Six Steam Boilers Used to Put Out Big Gas Well Fire

Calgary, Nov. 12.—With six steam boilers hooked up together, the crew of the Northwest Company began a determined attempt this morning to subdue the fire at the No. 4 Royaltie Gas Well, forty-eight miles southwest of Calgary. Other boilers will be added as fast as they can be gathered and transported to the scene until a sufficient head of steam can be raised to overcome the pressure of the 20,000,000 cubic feet of wet gas that is shooting from the well.

OTTAWA DEATH

Ottawa, Nov. 12.—Patrick Quinn, a widely known building contractor, died here yesterday in his ninetieth year.

Scientists of U.S. Now Endeavor to Transmute Quicksilver Into Gold

New York, Nov. 12.—Alchemy, discredited "science" of medieval times, may be vindicated by experiments of scientists in the United States. Under the direction of The Scientific American, whose editor, E. E. Free, is confident of success, experiments have been started to determine if practicability of transmuting quicksilver into gold—a feat that is said to have been accomplished recently at great expense by a German savant, Professor Adolph Miethe.

The "modern alchemy" is based on modern science, the experimenters say. Gold has a planetary system of seventy-nine electrons, while quicksilver has eighty. By permanently "knocking off" the superfluous electrons with electric current, it is believed pure gold will result.

SUGGESTION MADE FOREIGN SECRETARY KEEP DOMINION REPRESENTATIVES INFORMED

Weekly Conferences on Foreign Affairs of Empire in London is Newest Proposal for Reorganizing of Empire Control; High Commissioners Would Inform Their Governments, But Should Have no Further Powers, Says Correspondent of London Times.

London, Nov. 12. (Canadian Press Cable)—Suggesting that the British Foreign Secretary, as a matter of regular routine, should talk over the foreign situation with the High Commissioners of the Dominions in London every week, a correspondent of The London Times, dealing with the subject of Empire policy, says the most urgent reform relates to the conduct of foreign affairs.

The Dominions are entitled to a choice in the foreign affairs of the Empire, he asserts, but at present personal contact is lacking. By such weekly talks, the newspaper says, the Government of the Dominions would be kept informed about the real dangers to the Empire before they became acute, and the Foreign Secretary would be enabled to learn the attitude of the Dominions on all important matters before he took action.

It must be clearly laid down, however, the correspondent says, that no High Commissioner should be empowered to commit his Dominions to any course without the explicit authority of his Premier.

EXPLOSION WRECKS FLAMING DWELLING; OCCUPANTS FLEE

Courage of Tenant Saves Wife and Three Children
Early Morning Fire Leaves Saanich Family Penniless

An explosion that threw out the four walls of the house, knocked its erstwhile occupant flat on his back in the roadway nearby, and shattered the windows in a house some distance away on the far side of Gladiola Avenue, was the culminating incident in a fire that left Jack Mowat, his wife, and three small children destitute at an early hour this morning.

The explosion occurred at 2.45 a.m. fifteen minutes after Mowat rescued the children, aged six, eight and nine years respectively, and his wife from the flaming dwelling.

Mr. Mowat was awakened at 2.30 a.m. by a thick body of smoke in his bedroom. The house, a four-roomed bungalow newly built, centred in a hallway which connected with the kitchen. The kitchen and part of the hallway was in flames when Mr. Mowat dashed across the intervening space to the room where the children slept. He pushed the children to safety through the window, and again faced the flames in a return dash across the flaming hallway to get Mrs. Mowat. Mrs. Mowat sustained slight injuries in forcing her way through the bedroom window to safety. When all were clear, Mr. Mowat raced for a telephone to call the Saanich fire brigade.

On his way back a few minutes later, and almost at the point of re-entering the house to try and save some clothing and other personal belongings, he was knocked flat on his back by an explosion.

Before his eyes the four walls of the house burst open and the roof (Concluded on page 2)

BALDWIN CABINET HOLDS FIRST SESSION

Members of British Government Prepare For Opening of Parliament

London, Nov. 12.—An overcast sky, drizzling rain and mist marked the first day of the Baldwin Cabinet, the members of which assembled to discuss and to frame the statement of policy which will appear in the King's address on the opening of Parliament.

The drab wetness was to some extent offset by the resplendent attire and silk hats which the members of the Cabinet almost without exception wore for the occasion, presenting a striking contrast to the every day working attire adopted by the members of the Labor Cabinet.

Most of the Ministers decided, for to-day at any rate, to abandon their motor cars and walked to No. 13 Downing Street. Shielding their top hats from the downpour as well as they could with umbrellas, they arrived at 10.30.

PALMER CO. TO GET BIGGEST PART OF ROAD CONTRACT

(Continued from page 1)

neighborhood of \$375,000, and will be
undertaken by the Palmer Company.
The third section, from Lytton to
Spence's Bridge, will not be finished
until after the other sections are
completed. It will cost about \$200,-
000 and will be done by the Palmer
Company.

Messrs. W. T. Tierney and Com-
pany, therefore, will handle work to
the extent of approximately \$140,000,
while A. B. Palmer and Company's
contract will be for a sum in the
neighborhood of \$575,000.

BEFORE GOVERNMENT

Hon. W. H. Sutherland, Minister of
Public Works, has laid the tenders
before the Government. The next
step will be to ask the Legislature,
through the passing of a loan bill, to
grant the money necessary to carry
out the work. This will be done in
the near future. The actual con-
struction will not commence until
Spring, when weather conditions per-
mit, although some small jobs may
be undertaken this winter if unem-
ployment conditions warrant such a
step.

The letting of the contract to two
contractors will facilitate the work
materially, Hon. Dr. Sutherland says.
No. 1 section and No. 2 are in reality
separate projects, or in any event
may be carried on by two outfits sim-
ultaneously.

The above figures do not include
overhead crossings and other minor
details. There is also the big steel
bridge across the Fraser River near
Spuzzum, a structure which will cost
\$250,000. Tenders for this job will
not be called for until the actual
highway construction is well under
way.

"Our object is to rush the work as
rapidly as possible, having consid-
eration for the difficulties attendant
upon such a job, where existing rail-
ways necessitate the greatest care,"
explained the Minister at noon to-
day.

BUBONIC PLAGUE IS CAUSE OF MANY DEATHS IN INDIA

Secundrabad, British India,
Nov. 12.—An epidemic of bub-
onic plague has caused 4,000
deaths. There is a new out-
break in the native quarter of
Trimalgiri, near here. One
victim was a British soldier.

VERDICT TELLS OF SUFFOCATION

(Continued from page 1)

or drink, and engaged in prayers, ex-
hortations, trances, and all under the
influence and at the command of a
man apparently crazed by religion,
and one who himself imbued with
Divine power. Three of the
Dickie boys and the mother of the
dead boy, Mrs. Mary Dickie, gave
evidence.

Owing to the condition of the ac-
cused, Dickie was represented by
counsel.

IN CONFUSED STATE

Dr. F. A. Ireland, who was the
medical man summoned, said Dickie
was in a confused state of mind. He
had told witnesses that he had seen a
devil sitting in the room. It had
glaring eyes. Then he had heard a
voice saying the devil must be de-
stroyed. It had too scared the child
was possessed by devils. Dickie had
then, he told witness, placed his hands
over the child's mouth and nose, but
did not know how long he had held
the child so. It had expired.

Regarding other conversations, Dr.
Ireland testified some of the sons
said they had not anything to en-
quire of the father. They had been
in some sort of a trance, and had
been powerless. They believed their
father when he had told them that
they would all be struck dead if they
did not do as he said.

CAME FROM MERRITT

Mrs. Dickie said she arrived at
Nanaimo from Merritt on October
3, and on Sunday morning, after they
had been praying all night, her father
invited them all to look out of the
window. Then the father took the
child. It had struggled in her arms
when the father put his hand over its
face, but "I was too scared to take
my eyes away from the window," said
the witness. "I thought if I did so
I would drop dead. I tried to look
sideways, and watch the window, too,
but could only see baby's brow. Af-
ter he had told me it was dead, he
said he had the power to raise it from
the dead, and I believed him. He
said to hold it before the window—
to stand holding it. He would stroke
its head and pray, and then he would
dance about the room. When baby
did not come to, he said some of us
were possessed of demons."

A neighbor, James Tower, who had
known Dickie for twenty-five years,
said Dickie had always been relig-
ious, and also a just man. In the last
twelve months he had become more
religious and lately had become vio-
lent. He had been more violent
since attending the Pentecostal meet-
ings. Witness had always been a re-
ligious man, believed in Jesus Christ,
but did not believe in going through
the motions of the Pentecostals. He
did not believe in shouting and praying
aloud.

READ BIBLE

C. T. Perks, a minister of the Gos-
pel, said Dickie had read and used
four Bibles, and sat up until all
hours reading and then working next
day. Replying to other questions re-
garding trances, witness said he had
eard members of his faith praying
aloud for their own needs. He denied
his faith was that of the Holy Roll-
ings. There was no such sect in Na-
naimo. He had not seen people in
trances, but had seen them on the
floor, brought down under the power
of this condition, but he could not
of God. They were could recover
whenever they wished. A week ago
Friday Dickie had received the Bap-
tism of the Holy Spirit at the church,
said the witness.

Chief of Police Shirras stated last
evening that further developments
may occur shortly, but that in the
meantime he will consult with the
Crown counsel, Mr. Leighton, who
was present during the inquest, and
further action will result on the con-
clusion of this consultation.

PLANES ARE TO LINK MOSCOW AND PARIS

Moscow, Nov. 12.—Plans are under
way for a direct aerial passenger
service between Moscow and Paris.
Regular bi-weekly flights will be in-
augurated early next Spring. The 500-
mile journey to be covered in eight
teen hours by planes carrying eight
passengers each. The present rail-
road journey between Moscow and
Paris occupies nearly five days.

STEWARDS' UNION DECIDES TO STRIKE

Action in Australia May Re-
sult in Shipping Tieup

Sydney, Australia, Nov. 12 (Can-
adian Press Cable via Reuters).—It
was resolved by the Stewards' Union
Wednesday to call a strike of all
stewards employed on all steamers
and vessels of Australian registry
and to remain out until all those dis-
missed in a dispute between the
stewards and the companies have
been reinstated and an assurance
given that they shall not be asked
to attend passengers on liners who
are suffering from insanity.
This is the latest development of
the strike which has grown out of
the refusal of stevedores and dock
laborers of the principal Australian
ports to work overtime in loading and
discharging vessels. The differences
with the Stewards' Union will seri-
ously affect shipping in the Common-
wealth.

In the event of the Sydney strike
developing and a settlement not pre-
sented at the time, it is probable that
Australian shipping will be consid-
erably hampered. Ships which call
at this port are affected by such
strikes. The vessels of the Canadian
Australian line might be incon-
venient, as in the past.

EXPLOSION WRECKS FLAMING DWELLING

(Continued from page 1)

dropped into the roaring flames,
sending columns of sparks into the
air. Windows in a house across the
street gave in and the tinkle of
splintered glass awakened occupants
in the second dwelling. The flames
seized on the demolished building and
in a very few minutes nothing but
embers remained.

The explosion is attributed to the
bursting of a water tank under the in-
fluence of steam generated by the fire.
The plumbing system, like the house,
was new, only recently installed. It
is thought the boiler resisted the
pressure of the enormous head of
steam had been raised and then gave
way in an explosion that was heard
at miles from the scene of the fire.

Mr. and Mrs. Mowat, and family,
were in the house, owned by
"Scotty" Allen of this city, and the
fire is a genuine disaster for them.
They are entirely destitute, with
nothing saved but the nightclothes in
which they escaped from the fire. Neigh-
bors hastily provided clothing and
temporary shelter for the family.
The municipality of Saanich, by Chief Brogan, has opened
a depot for the reception of any gifts
of clothing or other aid that may be
collected in aid of the family thus
rendered homeless.

It was only the quick-wittedness of
Mr. Mowat that prevented the inci-
dent from becoming a genuine tragedy.
In his efforts he sustained painful
burns. The house was con-
structed about a year ago and was
insured, it is understood, by its
owner.

SCIENTISTS OF U.S. NOW ENDEAVOR TO TRANS- MUTE QUICKSILVER INTO GOLD

(Continued from page 1)

The experiments are being carried
out by Professor H. H. Sheldon of
the Department of Physics of the
University of New York.
The experiments probably will
take from two to four months," said
Mr. Free.

CONFIRMATION SOUGHT

He explained that Professor Shel-
don's efforts would be directed to-
ward confirming by a different pro-
cess results claimed to have been
achieved by Professor Mieths during
the last year at the Charlottenburg
Technical College at Berlin. In the
meantime, a duplicate of the appar-
atus used by Professor Mieths is be-
ing sent here for study.

The apparatus now being set up
in New York University consists
chiefly of a quartz lamp which en-
capsulates four tubes and elec-
trical paraphernalia. The lamp will hold
about a half ounce of quicksilver
vapor.

TO CRACK ATOMS

The theory is that a current of
electricity of 10 volts and an amper-
age to be determined will "crack" the
atoms of the quicksilver, "knock" off
the eightieth planetary electron
which differentiates quicksilver from
gold and thus leave atoms with a
planetary system of seventy-nine
electrons—pure gold.

The eightieth electron will have to
be knocked off from billions of atoms
if the experiment with the half ounce
of quicksilver is successful. For, as
Mr. Free said, "in the gold it takes
to plate the head of a pin there are
atoms enough so that each person in
the world could have several thou-
sand of them."

DISCOVERY AN ACCIDENT

Professor Mieths' reputed discovery
that quicksilver could be trans-
formed into gold was an accident.
Using a quartz lamp and quick-
silver vapor he was seeking to de-
termine the effect of violet electric
rays upon the vapor. After 200 hours
operation his apparatus became
clogged. He took it apart and dis-
covered the tubes were choked with
pure gold.

A repetition of the experiment
brought the same result, according
to German scientific treatises which
brought news of Professor Mieths' discovery
to the attention of The
Scientific American.

IN INDUSTRIAL FIELD

Mr. Free, whose articles on the
theory of atomic structure have
been widely quoted by American
scientific publications, declined to
predict what effect upon the financial
structure of the nation the cheap
manufacture of gold might be. In
the industrial field, however, there
certainly would be "revolution," he
said, "for gold would replace copper
in the making of electrical stuffs,
telephone and telegraph wires, in-
struments and machinery in num-
erous instances."

ACCURATE RECORDS

"We believe our experiments will
be successful," he continued. "Ac-
curate records will be kept so that
an estimate of the cost of producing
gold may be made. We shall make
the best possible estimate of the
time, if ever, the world will
have to face the threat of cheap gold.
The Scientific American's experi-

SENSATIONAL COAT SALE OF THE SEASON!

500 Aristocrats of the New Mode—Rich in
Fabric, Luxurious in Fur Trimming—Fea-
tured Now at a Decided Saving in Price!

This extraordinary sale of authentic Winter
coat fashions for women and misses means a saving
of many dollars, and represents an investment that
no value-wise woman will overlook. All were re-
cently purchased at remarkable price concessions—
all are fashions that establish the coming modes, and
will merit the attention of the most discerning.

The materials are in such variety that selection will be a simple
matter. Soft suede-like coatings, rich, deep pile fabrics and hand-
some close-napped materials with a fine velvety finish. A complete
array of the newest fashion-favored Winter colors.

The fur trimmings consist of large shawl and standing collars;
melon or straight cuffs and intricate bandings in many novel effects.
Choice of natural or blended Squirrel, Natria, Seal, Fox, Beaver,
Marmink and Muskrat. Every coat beautifully silk lined through-
out and warmly interlined.

245 Republicans in the New U.S. House

Washington, Nov. 12.—With the
return of official figures from the
Twenty-third Pennsylvania Con-
gressional District, showing the elec-
tion of a Democrat where unofficial re-
turns had given the seat to a Repub-
lican, the party lineup in the next
Congress, complete, stands as fol-
lows: Republicans 225, Democrats
185, Farmer-Labor 3, Socialists 2,
Total 435.

In the present Congress, with all
vacancies filled, the standing is as
follows: Republicans 225, Democrats
229, Farmer-Labor 1, Socialist 1,
Independent 1.

HOUSING OF BEAR FAILS TO SATISFY

A rather unusual incident occurred
in connection with the proposed pre-
sentation of a report with regard to
the housing of the bear, Ursus Ker-
model, at Beacon Hill Park, when the
matter was mentioned in City Coun-
cil last evening.
It will be recalled that the council
some time ago proposed to spend
\$100 on a suitable pen for the cele-
brated animal, but the aldermen were
asked by the custodian for an oppor-
tunity to have an estimate made by
an architect. As a result a vote for

\$1,150 was requested now, but when
the report was ready only Alderman
Woodward would sign it.

Alderman Andros said he would
not do so, and the third member of
the parks committee, Alderman Ker,
followed. Republicans 225, Democrats
229, Farmer-Labor 1, Socialist 1,
Independent 1.

This large appropriation for a bear
pen would provide for a space of
twenty-six feet by eighteen feet, with
exceptionally strong bars.

into capital. It is moreover important to recall that a country which has increased its population from something like 17,000,000 in 1900 to more than 30,000,000 in 1923, a country with an export trade of \$530,000,000 and an import bill of \$625,000,000, not to mention unexploited wealth which is yearly attracting men and capital from all over the world, must feel more than a trifle in the way of economic disturbance under the conditions which appear to exist at the moment. Nor does the progress which Brazil has made in the world of art and commerce suggest that any form of revolution, mild or acute, can be regarded as any light occurrence. For the cities of the republic may rightly boast of architectural treasures which pay tribute to its rapid and successful evolution since the overthrow of the monarchy in 1889.

This is not the first of Brazil's revolts. Such as it was in 1893 the navy revolted and caused a good deal of domestic dislocation. Since then, however, and until a few months ago, a period of steady development and prosperous times, an absence of any special diversion from the even tenor of her way, has left Brazil to her peaceful tasks. For the moment, however, the twenty-eight states of the republic are interested in a levelling-up process which is not peculiar to the New World.

SHOULD TRY AGAIN

THERE IS NOTHING IN the speech from the Throne which indicates that the Government proposes to introduce a resolution asking the Dominion Government once again to sponsor legislation in the House of Commons at Ottawa that would vest the sole right of importing liquor into British Columbia in the local Administration.

It is to be hoped that the Attorney-General will not take the two former senatorial rebuffs as the last word on such a highly important matter. He owes it to himself and his peace of mind to take every step which holds any sort of promise that bootlegging may be curtailed or even stamped out. One of the shortest cuts to this most desirable condition is obviously a restriction of importation privileges.

The Conservative majority in the Senate has been responsible for thwarting the will of the people of British Columbia on two occasions after the House of Commons had passed a measure of the kind in question. It may be reasonable to suggest that even the narrow and selfish vision of these gentlemen will have become somewhat broader in the face of the indignation to which a large section of the public gave expression after the Upper Chamber's actions in respect of the Pen-sions and Branch Lines Bills.

WILSON'S CHIEF OPPONENT

THE DEATH OF SENATOR Henry Cabot Lodge, whose funeral takes place to-day, removes a powerful influence from the ranks of the Republican Party in the United States. He was a leader of the opposition to the Wilson policy as exemplified in the Treaty of Versailles, with special reference to the League of Nations, and was largely responsible for the failure of the United States to ratify that treaty and participate in the organization to prevent war which President Wilson so strongly advocated. Whether the republic in turn will repudiate the attitude it adopted then or not time alone will tell. Possibly if President Wilson had made his foreign policy less a party matter, if he had taken prominent Republicans like Senators Lodge and Root with him to Versailles, the political history of the United States up to the present would have been different.

Why stop at the half dozen names which have been published as being "mentioned" in connection with the position of Agent-General in London? Why discourage thousands of others who are entitled at least to the dignity of being included in the mention column, whether they want the job or not?

Mr. John Hart, former Minister of Finance, has been mentioned in connection with the position of Agent-General in London in succession to the late F. C. Wade, K.C. Mr. Hart would be an excellent man for the post, since he possesses in a marked degree all the qualifications his duties would demand.

Mr. A. O. Cochrane, the new member for North Okanagan, began his speech in the Legislature by thanking Dr. K. C. MacDonald for presenting him with his seat. We

presume Mr. Cochrane was trying to establish a reputation as a humorist. If so he ought to make that plain to the electors of his constituency who voted for him, because they may feel that his presence in the House and that his gratitude has been misplaced. Evidently, too, his sense of humor got the better of him when he said the Government should make "outright grants to the irrigation beneficiaries in the Okanagan instead of loans. The taxpayers of the Province will scarcely appreciate the joke, but Mr. Cochrane appears to be one of those complacent beings who are quite satisfied as long as they are able to enjoy their own outpourings of wit and humor.

DR. FRANK CRANE
ON
"Crime and Safety"

THE crime of Mr. Hight, who murdered his wife and induced a woman to poison her husband, makes us realize how thin is the crust of our civilization. It cannot be too often impressed upon us that we are not secure because of our armies and navies and policemen and other things of that sort. Our security every day, rests upon the presence of the moral inhibitions of the people about us and of our own.

We are safe, mostly, because most of the people around us are decent. They have decent instincts and an habitual control over their passions. If they did not have they would reduce our whole social fabric to ruin within a week. Slowly the race has been getting rid of its criminal and destructive instincts. When we read of the crimes of the Borgias and other poisoners of long ago they seem to us to be of a foreign world and of different people from ourselves. Such an occurrence as that of the Hight murder makes us realize that we are still human, that there is still something in us of the age of the Borgias, and that our development has not proceeded very far.

It seems impossible for most of us to realize that people could commit such deplorable murders. Most of us are revolted at the thought of it, and our safety from such acts consists in the strength of the universal revulsion at them. This Mr. Hight seems to be a strange case. Although a minister of the gospel he did not sufficiently curb his evil passions and was willing to sacrifice anything in order to gratify them. The usual restraints found in religion and morality did not hold with him.

It is well for the world that there are few men capable of descending to such depths of crime.

WORDS OF WISE MEN

One ungrateful man does an injury to all who stand in need of aid.

An innate evil discovers the common notions of good and evil, which by cultivation and improvement may be advanced to higher and brighter discoveries.

Nothing is so great an enemy to tranquillity and a contented spirit as the maze and confusions of unreadiness and inconsideration.

It is by limitation, for more than by precept, that we learn everything, and what we learn there we acquire not only more effectually, but more pleasantly. This forms our manners, our opinions, our lives.

Joy is the delight of the mind, from the consideration of the present or assured approaching possession of a good.

The surest and most pleasant path to universal esteem and true popularity is to be just.

In the intercourse of social life, it is by little acts of watchful kindness recurring daily and hourly, by words, by tones, by gestures, by looks, that affection is won and preserved.

What an unspeakable happiness would it be to a man engaged in the pursuit of knowledge, if he had but a power of stamping his best sentiments upon his memory in indelible characters.

WHO'S WHO IN HISTORY TO-DAY

CANUTE
famous King of England, Denmark and Norway, regarded as one of the wisest as well as mightiest rulers of his age, died on November 12, 1035. As King of Denmark he twice invaded England, on the second occasion defeating the English dividing the kingdom with Edmund, after whose death he was chosen sole king. According to tradition, in order to show his dominion over land and sea, he placed his throne near the mouth of the Great Ouse, and commanded it not to rise beyond a certain point. He narrowly escaped being drowned.

LORD FAIRFAX
(Thomas) distinguished English general, leader of the Parliamentary army in the Civil War, died on November 12, 1633. He disapproved of the seizure of Charles I., but was forced by the attitude of the army to acquiesce in this measure, as well as in the execution of the king. Later he aided in restoring Charles II. to the throne.

CHARLES KEMBLE
noted English actor, died on November 12, 1854. He was associated with his brother, John Kemble, and Mrs. Siddons in the production of new plays. He acted for three years in the United States.

PERCIVAL LOWELL
American astronomer, best known for his studies of the planet Mars, died on November 12, 1916. He established the Lowell Observatory at Flagstaff, Arizona, and was its director for twenty years.

Other People's Views

Letters addressed to the Editor and intended for publication must be short and legible. The longer an article the more chance of its being lost. All communications must bear the name and address of the writer, but not for publication unless the editor is so informed. The publication or rejection of articles is a matter entirely within the discretion of the Editor. Responsibility is assumed by the writer for statements made in the paper for his own account.

COMPARISONS ARE WHAT?

To the Editor—In last evening's Times appeared the portraits of three aldermanic candidates. Just below appeared the results of the egg-laying contest. If the comparison was not intentional, it was obvious. The humble biddy takes her seat, produces the goods and then announces the fact to the neighborhood. This candidate for public office first makes a loud, raucous cackling, takes his seat, and nothing happens. As he falls gently asleep, he pokes his thumb to his nose, winks the other eye, and murmurs: What fools these mortals be; they sure believed in me; but till the voter comes and sacks us; we'll carefully pile on the taxes. O. C. B.

MUNICIPAL UNION PREPARES CASE FOR ARGUMENT

Government Will be Urged to Take Over Entire Burden of Education

Island Delegates Back From Executive Meeting to Line Up Joint Proposals

Plans for presenting to the Provincial Government its case for the relinquishment of the schools from municipal control have been completed by the special committee of the Union of B.C. Municipalities and full data to support the contention that the light of Laurier Lane until the engineer had an opportunity to go further into the offer to convey the lane to the city, which was proposed to be carried out shortly.

Nature's Teaching Helps Packers of Eastern Lobster

An example of how science can help business was related to The Times yesterday by Dr. A. P. Kail, of Kingston, Ont., chairman of the Biological Board of Canada.

Some years ago an investigation was conducted at one of the Canadian biological stations to ascertain the composition of the lobster, and the salt compounds of the juices of the crustacean. The matter was a scientific test, and, practically forgotten, until difficulties arose with regard to the right amount of salt to be used in the pickle for preserving lobsters for the market.

Atlantic firms were in the habit of using from two to twelve per cent. salt, but when lobsters were preserved in the same pickle as their natural content, just under three per cent., satisfactory results accrued, and now the standard lobster pickle in the marketing provinces is that dictated by the biologist in the course of his experimentation for scientific purposes solely.

The WEATHER

Daily Bulletin Published by the Victoria Meteorological Department

Victoria, Nov. 12—5 a.m.—The barometer is abnormally high over this Province and, consequently, the winds from the Rockies eastward to Manitoba.

Reports
Victoria—Barometer, 30.35; temperature, maximum yesterday, 42; minimum, 31; wind, 6 miles N.E.; rain, .01; weather, fair.

Vancouver—Barometer, 30.38; temperature, maximum yesterday, 38; minimum, 26; wind, 4 miles E.; rain, .04; weather, clear.

Kamloops—Barometer, 30.42; temperature, maximum yesterday, 36; minimum, 24; wind, calm; weather, clear.

STREETWORK IS TO BE UNDERTAKEN

It is proposed to take over Laurel Lane from the property owners, and provide lights there but the City Council decided last evening to have further data before doing so.

New lights are recommended as follows: Battery and Douglas; west end of First Street; Cecilia Street at lane and Basil and Blackwood Streets.

The purchasing agent is authorized to purchase cable-testing equipment for the city electrician's department, at an approximate cost of \$170.

The Council decided not to pursue the lighting of Laurel Lane until the engineer had an opportunity to go further into the offer to convey the lane to the city, which was proposed to be carried out shortly.

The Council instructed the City Engineer to repair a wooden sidewalk on Terrace Avenue, between Rockland Avenue and St. Charles Street.

A sidewalk on Blackwood Street, between Seaview Avenue and Hillside Avenue, was authorized for a short distance to serve six houses.

Alderman Dewar drew attention to the necessity of repairing Carroll Street sidewalk, to serve twenty-five houses, and the engineer was asked to report. It was stated it had been promised relief last year.

Suggested improvement in the names of streets, in placing the designation signs, was voted in a communication from the Real Estate Board, and referred to the City Engineer for report. Some streets were without signs to indicate their names. It was pointed out in other instances, the signs were badly placed. Two strangers in town this gave rise to difficulty.

Will Not Try To Move Stadium Lumber Elsewhere

An unusually spirited discussion arose in the City Council last evening on the proposal to tear down and erect at the Stadium, alternatively to become the property of the tenderer, or to be re-erected on corporation property at the southeast corner of Quadra Street and Topaz Avenue.

The majority of the aldermen declined to refer the tender, which had been opened, to the building inspector for report, declaring that it was futile to attempt to use the lumber again, as it was second-hand when erected at the Stadium.

Eventually it was agreed that after segregating the bids, the highest offer for the lumber should be accepted, and no attempt should be made to utilize it again, two of the aldermen saying a grave risk would be taken in trying to erect a grandstand out of the material.

Premier Ismet of Turkey is Ill and Advised to Rest

London, Nov. 12—The condition of the Turkish Premier and Foreign Minister, Ismet Pasha, who is ill, has become worse, says an agency dispatch from Ankara, his doctors having advised him to take a rest abroad, in which case he would relinquish office.

A Careful Man

doesn't take anything that is handed to him. He looks at the quality and asks if it is a British Columbia product. He is careful to keep his money in British Columbia because it will come back some day to him.

LABOR MEN TO SHOW STRICT INDEPENDENCE

Distrust Both Parties; Thorough Dope Investigation Demanded

Get at "Respectable" People Behind Traffic, Neeland Urges

Labor Members in the Legislature, like the three lone Provincials, will be strictly independent, with little faith in either of the two principal parties. This announcement of labor policy was made in the House yesterday by R. H. Neelands, Labor, South Vancouver.

"In our opinion there is very little to choose between the Liberal and Conservative Parties," said Mr. Neelands. "For our part we shall deal with matters as they come up on their merits, but when principles for which we stand are challenged we will go the limit in defence of them."

In a fierce attack on the drug trade Mr. Neelands demanded that the authorities, instead of dealing with the peddlers of dope, get to the bottom of the evil and trace the "ghouls" behind the business.

Mr. Neelands quoted figures to prove that in Vancouver, drug addicts numbered 3,000, who consumed nearly \$1,000,000 worth of drugs a year. This, he added, was a conservative estimate.

Mr. Neelands endorsed the idea of a provincial home for addicts but declared that the great need was a systematic investigation on find out who were backing the drug traffic.

"I believe that such an investigation will reveal a number of people who hide behind the cloak of respectability. We should pay less attention to the poor devil peddling drugs on the street and get at the 'ghouls' behind the traffic he assisted."

ATTACKS TIMBERMEN
Mr. Neeland's speech, in contrast to the utterances of others, was featured by a sharp attack on the timbermen of the Province and an intimation that they would receive no sympathy from the Labor members in their demands for timber royalty reductions.

"The timbermen evidently were not asleep at the last election," he remarked, referring to the speeches of other members, advocating royalty cuts. Conditions in the lumber industry, he declared, were driving men out of this country. Through the operation of a "vicious black list" by the employers, many excellent workers had been forced to leave the Province, he said, simply because they had been classed as agitators.

"The moment a man raises his voice in protest against conditions he is promptly classed as an agitator and black listed," he charged.

Quoting figures showing the wages in effect in the timber industry, he declared that while men had been reduced to a scale lower than that of Oriental workers here.

NO SYMPATHY
"Until these conditions are removed, the lumbermen are not entitled to very much consideration from this House and they won't get it from the Labor Members," said Mr. Neeland. If the lumber barons were as near destitution as they claimed, Mr. Neeland suggested that they should be given relief work at the wages paid to the unemployed.

Mr. Neeland strongly advocated old-age pensions and attacked the Workmen's Compensation Board adding in effect that the board should remove the labor market of cases of dispute should be settled by a board, consisting of doctors nominated by the Board and the injured workmen, and three laymen.

Mr. Neeland saw little use in encouraging immigration until conditions here improved. He attacked strict immigration inspection to prevent the entry of mental defectives.

Division of the Cowichan-Newcastle riding into the two original constituencies of Cowichan and Newcastle was advocated by Mr. Neeland, who referred to the defeat of Samuel Guthrie, former Labor Member for Newcastle.

EQUAL OPPORTUNITY
In advocating educational reforms, Mr. Neeland said the Labor Party stood for equal educational opportunities for all children so that any who showed ability would be able to go to University. He strongly urged the Government to print all text books, thus lowering the cost of these books to parents. Money spent on education by the Government, he declared, was not waste, but the best

SQUIBS HAD HILARIOUS
TIME IN FRENCH VILLA
ON FILM HONEYMOON

The weather in France during the filming of "Squibs' Honeymoon," which plays at the Capitol Theatre all this week, was of the very worst, and on one day an inch and a quarter of rain fell in an hour and a half. "The last scene taken," said Betty Balfour, "was a little incident in a 'Septembre Morn' which I played shivering in the icy blasts of a fierce gale—and got a bad influenza cold as a reward. Otherwise we had an interesting trip—rushing all over France between the showers."

"Near Montmorency we took scenes round about a quaint old house inhabited by a dear old lady with one tooth who must have been quite ninety years old. She insisted on kissing Mr. Pearson every morning before we started work. We took several scenes in the vicinity of the Pre Catelan, a real old French farm and show place much visited by Parisians and tourists. We made the inn our headquarters for some days and every evening were greeted by the villagers congregated in the house as English villagers foregather at our own English inns. They were very sorry when we departed and by way of wishing us good speed sang 'God Save the King' in French."

ELINOR GLYN STORY
FILMED AT DOMINION
WITH AILEEN PRINGLE

Aileen Pringle, who plays the leading role in Elinor Glyn's love story, "His Hour," the Metro-Goldwyn-Mayer production now showing at the Dominion Theatre, has wealth and position aside from her screen success.

Miss Pringle is in pictures not because she must earn her living, but to become a cinema success. This actress is the daughter of a wealthy man as well as being the wife of the largest landowner in Jamaica. She was born in San Francisco, had an extensive and interesting education in America, London and Paris, and lived in Europe and in Jamaica from the time she was twelve years old until four years ago. Then she decided to try a picture career.

Shaking the dust of wealth from her dainty slippers she arrived in New York and entered the extra ranks just as any one without finances might have done. Her progress upward was very gradual.

Her first noticeable role was the ingenue in "The Sport of Kings." "Three Weeks" presented her first big opportunity and she made good to such a degree that she was signed by Metro-Goldwyn-Mayer on a long term contract and is seen as Tamara Lorraine in "His Hour," which King Vidor directed.

ETHEL CLAYTON LEADS
IN AHMED ABDULLA'S
STORY ON SCREEN

All Ethel Clayton's starring vehicles on the screen are characterized by the excellence of the supporting casts, all of which are invariably chosen under the supervision of Miss Clayton herself.

Her latest F.B.O. production, "The Remittance Woman," announced for exhibition at the Playhouse Theatre this week, is no exception to the usual high stand of playing support. Among those who appear with Miss Clayton in this stirring tale of adventure and romance in China, are Rock-liffe, Fellows, Mario Carillo, Frank Lanning, Tom Wilson, Etta Lee, James B. Leong, Edward Kimball, Toyo Eugenia and others.

BUCK JONES RIDES
WONDER HORSE IN
"AGAINST ALL ODDS"

Human intelligence, devotion and blind loyalty, you'll have to credit all these qualities to the iron-grey wonder horse "Silver," ridden by "Buck" Jones in one of the equestrian acts shown in one scene of William Fox's new Western offering, "Against All Odds," at the Columbia Theatre today for the last time.

As the hero, "Chick Newton," Buck mounted on "Silver" gives chase to a car, and catches a fast moving train, to rescue his cowboy buddy, "Bill Warner," innocently condemned to be hanged.

With cowboy cleverness, Buck "ropes" the train and pulls himself out of "Silver's" saddle and into the car. But "Silver" doesn't stop dead when his rider vanishes into the train's interior. He keeps right on going, galloping. The riderless steed races faster, ever faster, if anything, chasing the train with blind loyalty.

For "Silver" seems to sense instinctively that sometime, somewhere, his beloved master will need him. The train slows up and "Buck" with his buddy leaps to the ground. "Silver" foam-flecked but game to the heart's core is right there, ready to gallop back with a double load to safety.

RINEHART MYSTERY
ADAPTED FOR SCREEN
AT COLISEUM THEATRE

"K—The Unknown," Universal Jewel with Virginia Valli as star, opened in the Coliseum Theatre this week to capacity houses. The picture-play is the screen version of the novel by Mary Roberts Rinehart, and the cast and the director are to be congratulated for the sympathy shown the original, both as regards characterization and fidelity to the story.

Miss Valli's work reminds one of her work in "The Signal Tower," also a Universal, although in that case she was the wife and mother, while in the present vehicle she is a young woman. But in both instances the surroundings are simple and the characters are of that appealing, but mature sort that fit Miss Valli so well.

The name part of the story, "K," is portrayed by Percy Marmont. He is the one who deserts a great career to bury his identity in a small town, where he falls in love with Sidney, much to the grief of one of her youthful admirers, who is made to realize that the attractions of her mature man have eclipsed in her affection his bouquets and the boxes of candy of his rival, also a youth.

This puppy love is made the struts on which to hang the comedy of the picture, and also much of the tragedy. Maurice Ryan takes the part of the youth whose mentality is unhinged by reason of his disappointment and who brings a dramatic denouement on which is based the finish of the story. Francis Feeney is the other youth.

Margaret Fischer is cast as Carlotta Harrison. This appearance marks Miss Fischer's return to the screen after a retirement of considerable period after her marriage to Director Harry A. Pollard, who made this picture.

"THE COVERED WAGON" WILL BE SHOWN AT THE DOMINION

One of the most compelling and primitive love stories ever told on the screen is embodied in "The Covered Wagon"—Emerson Hough's novel, which was picturized by James Cruze for Paramount with a feature cast. The picture will be the feature at the Dominion Theatre for six days beginning Monday next.

The romance between Molly Wingate, "the belle of old Liberty town," and young Will Benton, late of the Indian army in the war with Mexico, with a clouded record which brings about near disaster for the loves of both, is not only beautiful but inspiring. There is all the strength of passion, the rugged charm and the wilderness sweetness that characterized the country in the days of '48.

A bitter rival in the character of Sam Woodhull causes untold trouble, but in the end all comes right. The production is one of exceptional massiveness. Thousands of persons appear in the varied scenes, fully 1,000 being full-blooded Indians, all descendants of the savages who harassed the wagon trains as they crossed the plains during the gold rush period of 1849. There are many dramatic scenes, the chief of these being Indian attacks on the wagon trains, a real buffalo hunt and a thrilling prairie fire.

Great Organist Courboin
Plays To-night at the
Metropolitan Church

Music lovers are anticipating a rare treat when Charles M. Courboin, Belgium's greatest organist, will be heard in recital to-night at the organ of the Metropolitan Church. His programme is a magnificent one, and includes two numbers by English composers, one of which is Elgar's "March 'Pomp and Circumstance,'" and the "Hallelujah Chorus" (by request). The opening number will begin at 8.30 and doors will open at 7.45. This is Courboin's first visit here, and the recital is sure to prove one of the outstanding musical events of the season.

Denies Protection
Was Given Gamblers

Montreal, Nov. 12.—Denial that he had ever assured police protection to an alleged gambling house on Mount Royal Avenue was made by Alderman Savard, whose name has been prominently mentioned at the Montreal local police inquiry, in a document read at yesterday's meeting of the City Council. The alderman admitted having played cards at the establishment in question, but declared there had been nothing at stake.

CORNS

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers.

Don't Suffer With Piles

No matter if you have had piles for years Pyramid Pile Suppressor gives you the relief you want from the pain, itch, strain, bleeding and soreness of protruding piles. Get a 50-cent box today at any drug store. You will then know why Pyramid is the national coast-to-coast reliance.

What's Best for a Bad Stomach?

Nine-tenths of all stomach trouble—indigestion, sourness, gas, pain, heartburn, etc., are caused by an excess of acid in the stomach. Artificial digestants, such as pepsin, are not needed in such cases and may do real harm. Try laying aside all digestive aids, and instead neutralize the acid that has upset your stomach with a spoonful or two of tablets of pure Bisurated Magnesia, taken with a little water. This instantly sweetens the stomach and stops the acid, and may do real harm. Try laying aside all digestive aids, and instead neutralize the acid that has upset your stomach with a spoonful or two of tablets of pure Bisurated Magnesia, taken with a little water. This instantly sweetens the stomach and stops the acid, and may do real harm.

MOST PEOPLE PREFER BISURATED MAGNESIA

BARKLEY SOUND IS FULL OF HERRING

Catch Appears to be Excellent According to First Hauls

Barkley Sound is full of herring. The first hauls from the herring banks on Barkley Sound, a very great and early run of these fish, driven in by deep-sea storms, came on the grounds about October 31 and caught the fishermen unprepared. All hands are now working feverishly, but for the first few days the fishermen were not equal to the sudden visitation of silver fish that would mean gold for them.

A remarkable catch is already recorded. In a field where an average five-month catch is 25,000 to 30,000 tons, there is already nearly 6,000 tons of herring sailed from October 31 to November 7 this year. Usually the season starts about the present date.

One fisherman, in telling of the catches, was so startled when he sailed up and saw the mighty mass of fish he had trapped that he left the purse open for twenty minutes to relieve it. A deep river of fish poured from the opening, yet when he did seine up he had 140 tons. The fish run about six to the pound, the tons are long, so he landed approximately 1,840,000 fish.

FOLLOWED PIRACY AS PROFESSION

Japanese Bandit Trained in Law Office, and Then Took to Sea

Piracy in the present age is uncommon, but according to a story unfolded to exchangers to hand on the liner Empress of Asia, this business is not yet obsolete in the Far Eastern seas. Ichiro (Ichiro) Ezure seems to have overlooked nothing which the bold bad buccaniers of the Spanish Main regarded as proper for their daily avocation. He is accused of having sailed away with fellow conspirators, and captured a freighter with a load of kerosene, the four sailors being despatched. After this, it is alleged, Ezure attacked a steamer, manned by a crew of Chinese and Russians, flying the Russian flag, and after shooting all on board in revenge of the Nikolaiyevsk affair in which the Japanese inhabitants of the Russian port were massacred, took the ship.

He is the son of a wealthy father and received a primary education after which he entered a private law college, in which, however, he remained but two years. He was a vagabond, he claims, during 1914 and 1915, when he cruised the South Sea.

PLEAD MISTAKEN IDENTITY WHILE IN POLICE TOILS

Alleged Hi-jackers Claim They Are Not Notorious Eggers' Brothers

Seattle, Nov. 12.—Secret agents of P. J. Kelly and Charles Pfeuger, famous Puget Sound hi-jackers, immediately after their arrest here several months ago, for piracy in Canadian waters, rushed word through mysterious underworld channels to their alleged confederates, the Eggers Brothers, it was learned from Deputy Sheriff William E. Coffey to-day, to "get out of the country quick."

The Eggers therefore suddenly vanished, Coffey said, so completely covering their trail that deputies at their heels before the warning came were unable to follow them further.

Whether the two men, "Arthur Miller" and "Frank Larson," arrested by Pinkerton detectives in San Francisco, were actually Ariel and Milo Eggers was not fully determined yesterday, according to news dispatches. While the detectives claim to have the right men, "Miller" and "Larson" both deny they are members of the Eggers family and assert they are victims of mistaken identity.

That Ariel, Milo and Ted Eggers, all of this city, were members of the Kelly-Pfeuger gang of dangerous hi-jackers in the piracy of several run-running craft is now well-known, according to Deputy Coffey. Just which one of the practical acts will be charged against them, if they have actually been captured, is not yet learned here.

San Francisco dispatches say that as yet no demand has been made by the extrajudicial of the two men under arrest. According to San Francisco police they have information that the pair helped sink one ship in Hope Bay, near Pender Island, and captured another in the same vicinity August 11. A third vessel, it is said, was seized by them in March, 1923.

Lief Ericsson is Now a Derelict, Cruiser Reports

Washington, Nov. 12.—Reports have reached the cruiser Trenton in the North Atlantic that derelict correspondence in dimension to the missing motor yacht Lief Ericsson, which left Bergen, Norway, last July, to follow the route which the explorer for which it was named sailed toward America, was sighted recently at the sea in that vicinity. On board were William A. Nutting and Arthur Hildebrand, American writers, and Eric Toshi, a painter.

HEAVY WEATHER SMASHES BOOMS

Davis Rafts Are Now Loose in Queen Charlotte Sound's Dangerous Waters

Bad weather in Queen Charlotte Sound has caused, it is feared, the loss of two Davis rafts that were crossing overnight. This piece of water, open to the Pacific storms, is one of the most dangerous portions of Coast navigation. Ships passing north and south have to take to the open here. All other portions of the Coast provide sheltered channels.

The tugboat Cape Scott, owned by the Hecate Straits Towing Company, is standing by her tow, a Davis raft, which is breaking up in a very bitter sea. The ship was southbound from Swanson Bay to Seattle, with 800,000 feet of logs in the raft. She was making time in a terrific gale when at 5 a.m. the side sticks of the raft parted and the tow began to break up.

The second raft is believed breaking up two miles south of Pine Island, and according to a report from Bull Harbor wireless station.

It is thought this tow may be that of the tugboat Clear, though her owners do not think she is that far south. On Sunday she was off Idof Island at noon.

The tugboat Lorne is safe with a raft. She has passed the Yuculta. WIRELESS

SAN FRANCISCO SHIPPING

San Francisco, Nov. 12.—The Pacific Mail liner President Taft is due to arrive here from the Orient Friday morning at daylight with 156 cabin passengers and 5,027 tons of cargo. The President Taft has a steerage list of 150 passengers.

Bringing a cargo of 4,750 bags of Central American coffee and \$108,000 in treasure in her specie tanks, the Pacific Mail steamer San Juan arrived here last Friday morning.

The Pacific Mail liner President Pierce will sail for the Orient from here Saturday with a large passenger list and heavy cargo.

POSITIONS BY WIRELESS

EASTERN SHIPPING HEAD IS OPTIMISTIC FOR NEXT YEAR

F. J. McClure Says Two New Vessels of One-cabin Type Have Been Slated for Canadian Schedule; Older Ships to be Placed on New York-Liverpool Route.

"The Ascania and Aurania, two new vessels for the Cunard Canadian service, specially built for the St. Lawrence route, will replace the Carmania and Caronia next summer," said F. J. McClure, passenger manager of the Cunard, Anchor and Anchor-Donaldson Lines, with headquarters in Montreal, in a statement to The Times this morning.

The Carmania and Caronia, previously of the Quebec to Liverpool service, will go on the New York to Liverpool run next summer, and the two new vessels, the Ascania and Aurania, the one-cabin class of ships, take on a fortnightly service to Liverpool, eastbound," he said.

"There is a weekly Glasgow service both eastward and westward, as the Ascania and Aurania, the Anchor-Donaldson service, will call at Liverpool westward bound from Glasgow." The London service is the same as last year, according to the plans of the steamship officials for 1925. The Ascania, Aurania and Ansonia, calling at Plymouth on the way to London, and westbound touching at Southampton and Cherbourg and Queenstown, known as the "A" boats, so popular in past seasons.

PLAN COLLEGE TOURS. The Cunard and Anchor-Donaldson services plan a new series of college tours. They will institute the so-called college tours. "The idea of these excursions," said Mr. McClure, was to allow students, professors and teachers and other persons wishing to increase their knowledge of Europe and to see the things of historic interest so dear to the hearts of students. These persons, McClure asserted, were often not in a position to tour in Europe as they might wish to do. But the college tours had been arranged whereby they might see the country at minimum cost, under direction of capable and experienced guides. Third cabin accommodation is given these passengers, and they will be the sole occupants of this class of cabin during the voyage.

EXPECT HEAVY TRAFFIC. "Judging from the pressure already existent on next summer's space, travel to the Old Country will, even heavier than it was this year, especially as there is a good chance of the Wembley Exhibition opening again," Mr. McClure declared. The lines are also arranging Christmas sailings this year, and the Ascania and Aurania, both sailing from Halifax for Glasgow on December 8, and the Carmania, from New York, calling at Halifax on December 15, will carry passengers who wish to be home for the Christmas festivals in their native land.

"It seems to be conceded by public men throughout the Dominion that Canada needs more settlers," said Mr. McClure. "Arrangements are being made by various agencies and in different directions for bringing suitable settlers to Canada. Indications point to a larger influx next year than at any time since the war, and the Cunard and Anchor-Donaldson lines are prepared to handle their share of the traffic."

CARRY FRUIT TO EUROPE

The Okanagan export business has been large this year and much of the fruit from the west of Canada, on its way to British markets, has been routed overland and then carried by the Anchor-Donaldson and Cunard lines. C. A. Whitlock, Cunard manager at Vancouver, stated to-day, Mr. Whitlock and Mr. McClure are traveling together and will go south shortly, after which trip the latter will return to Montreal and Mr. Whitlock comes back to Vancouver. The lines are also arranging world cruises and many of the giants of the Atlantic steamship service will sail to various parts of the world, including the Mediterranean, Norway, the Orient, Panama and other points during 1925. The tours are under the auspices of such well-known agencies as Cook & Son, Company, Raymond and Whitcomb, Clark and others. Such vessels as the Lancastria, the Franconia, the California, the Exhibition, the Samaria and the Laconia will carry the tourists in the excursion season.

COASTWISE MOVEMENTS

For Vancouver
Princess Victoria leaves daily at 3:15 p.m.
Princess Adelaide leaves daily at 11:45 p.m.
From Vancouver
Princess Adelaide or Princess Mary arrive daily at 7 a.m.
Princess Charlotte arrive daily at 3 p.m.
For Seattle
Princess Charlotte leaves daily at 4:30 p.m.
For Sitka
Princess Victoria leaves daily, except Sundays, at 10:15 a.m.
Princess Victoria arrives daily at 1:15 p.m.
Princess Duane arrives daily, except Sundays, at 9 a.m.
For Port Allen
Princess Maquinna leaves on 1st, 10th and 20th of each month at 11 p.m.
For Alaska
Princess Mary leaves for Northern ports October 23, November 1, 15 and 29, and December 13 and 27. After this date she will make two sailings monthly.

MOTOR FERRY SERVICES

Sidney to Anacortes
Mount Vernon leaves daily at 9 o'clock.

C.G.M.M. MOVEMENTS

Canadian Highlander left Glasgow October 23.
Canadian Importer left Brisbane October 15.
Canadian Inventor arrived Montreal.
Canadian Planter at Vancouver.
Canadian Prospector in Victoria.
Canadian Scottish left Nanaimo for Quebec October 7.
Canadian Miller left Halifax October 25.
Canadian Skirmisher arrived Avonmouth October 30.
Canadian Traveler arrived in Montreal.
Canadian Winner at New Westminster.
Canadian Coaster arrived Vancouver.
Canadian Farmer arrived Vancouver.

UP FOR REPAIRS

The Kilnash, a small freight carrier, was taken out on the Victoria Machinery Depot's marine ways to-day and will undergo some repairs of minor importance. She will be ready for sea again to-night.

The Consolidated Whaling Corporation's boats, the Brown and Green, are still in the repair yard, but it is expected that the whaling boats will be put into condition shortly.

CREAM CLEARS A STUFFED-UP HEAD

Instantly Opens Every Air Passage—Clears Throat

If your nostrils are clogged and your head is stuffed because of nasty catarrh or a cold, apply a little pure, antiseptic cream into your nostrils. It penetrates through every air passage, soothing and healing swollen, inflamed membranes and you get instant relief.

Try this. Get a small bottle of Ely's Cream Balm at any drug store. Your clogged nostrils open right up; your head is clear; no more hacking or snoring. All the stiffness, dryness, struggling for breath is gone. You feel fine. (Adv.)

BASEBALL, BOXING

Games In School
Leagues Getting
Keener Each Week

Junior Girls' Basketball Practically Decided In North and South Sections

Championships in Senior Basketball and Football Are Still in Doubt

Games in the various leagues operated by the Victoria and District School Sports Association are proving keener as the season progresses and although the schedules have passed the half-way mark there is no indication as to which schools will emerge champions in some of the leagues.

In the junior girls' basketball it looks as though the North Wards will annex the title in the North Section while Oaklands appears to have a safe lead in the South Section. Each team has won all its games this season and the Ward are four points in front of the old rivals, Victoria West, in the North Section while Oaklands is five points ahead of South Park in the South Section.

Officials of the association, convinced that Oaklands and the Wards will be the winners, are arranging a play-off between the schools for the city championship. This series should prove very keen and exciting as both teams play a quick, open game.

JUNIOR FOOTBALL

In the Junior Football League the race is still open. In the North Section Oaklands have yet to be beaten and are two points in front of North Ward. In the South Section a similar condition exists. George Jay have yet to taste defeat, being two points ahead of South Park. Oaklands will be hard put to maintain their lead while the rapid spurt of the Boys' Central since they were outfitted in their new sweaters, make them a team to be reckoned with. Last week the Boys' Central held the South Section leaders, George Jay, to a draw and are now in third place, one point behind South Park.

Both the girls' and boys' senior basketball leagues have covered half the schedule. An interesting situation exists in each with two evenly matched teams battling for the lead in each section. George Jay are showing the way in the senior boys' league having failed to suffer defeat. South Park are second having won all but one of their games. Three teams, North Ward, Esquimalt and Oaklands have even scores in the game and are tied for third place.

YET TO BE BEATEN

The North Ward girls have not tasted defeat this season and are two points in front of Oaklands, who went under once. Esquimalt and George Jay have each won one game while South Park has yet to win.

The standing of the leagues at present are as follows:

Junior Boys' Football—North Section	
Oaklands	4 3 0 1 7
North Ward	4 2 1 1 5
Burnside	4 2 0 0 4
Esquimalt	4 2 0 0 4
Victoria West	4 0 2 2 2

Junior Boys' Football—South Section	
George Jay	4 3 0 1 7
South Park	4 2 1 1 5
Boys' Central	4 1 1 2 4
Margaret-Jackson	4 0 2 2 2
Sir James Douglas	3 0 3 0 0

Junior Girls' Basketball—North Section	
North Ward	5 5 0 0 10
Victoria West	5 4 0 0 9
Esquimalt	5 1 4 0 2
Burnside	5 0 5 0 0

Junior Girls' Basketball—South Section	
Oaklands	5 4 0 0 9
South Park	5 2 2 1 5
Sir James Douglas	4 1 2 1 3
George Jay	4 0 4 0 0

Senior Boys' Basketball	
George Jay	4 3 0 1 7
South Park	4 2 1 1 5
North Ward	4 1 3 0 2
Esquimalt	4 1 3 0 2
Oaklands	4 2 0 0 4

Senior Girls' Basketball	
North Ward	4 4 0 0 8
Oaklands	4 3 1 0 6
Esquimalt	4 1 3 0 2
George Jay	4 1 2 1 3
South Park	4 0 0 0 0

Wins Feature Race
By Head in Record
Time at Baltimore

Baltimore, Md., Nov. 12.—J. E. Widener's Altawood won the \$10,000 Bowls Handicap, yesterday's Pimlico feature, by running the mile and a half in 2:30.5, three-fifths of a second better than the track record made by George Smith in 1918. A head behind the Widener colt came Aga Khan, while My Own took third place. Aga Khan took the lead in the break from the barrier, trailed closely by Spot Cash and Rustic. The half-mile mark found Aga Khan still leading but Sunini had displaced Spot Cash, Altawood in the meantime trailing the field by a dozen lengths. At the clubhouse, however, Jockey Ivan took the whip into action and his mount "jumped into the lead on the finish stretch. My Own pulled out at the same time to take show position from Rustic.

FALCONS SEEK GAME

The Falcons would like to hear from teams wishing basketball games. Teams are asked to communicate with R. Hocking, 684 Toronto Street, Victoria.

OLYMPIC STAR TURNS

HOOLEY SMITH

The Ottawa Hockey Club has signed Smith, who was one of the outstanding players with the team which won the Olympic hockey championship at Paris last winter for Canada.

WITH THE BOWLERS

In one of the lowest scoring matches of the season, the Wilcox Hat Company took two games from the Eagles in the City Bowling League. Splits seemed to be the downfall of the majority of the players and with the exception of a few, the bowlers made any score worth consideration.

Wilcox Hat—	
Wilcox	158 161 127—444
Oatman	133 168 153—454
Coxworth	134 130 110—374
Shepherd	140 134 151—425
Moulton	148 145 166—459
	713 738 708—2157

Eagles—	
Neil, D.	145 144 136—425
Neil, D.	135 126 155—416
Forster	145 184 155—484
Brown	102 129 121—353
Neil, W.	129 140 142—402
	647 714 709—2070

On Second Thought

"Any kind of putting form is good," said Jack Hutchison. "Develop confidence and stick to it."

Catcher Steve O'Neill of the Red Sox started out to be a fighter but was stymied by parental objections. Fighters agree Jack Johnson was the game he ever known.

Herb Pennock of the Yankees is easily the most consistent twirler among the American League's long list of southpaws.

Because of England's refusal to accept the new American model it is unlikely that a change in golf balls will be made before 1926.

For one of the few times in his long career, Stanley Coveleskie, star pitcher last season, failed to get at least a fifty-fifty break in games won.

British golfers like to write. The two Wedgwoods, collaborated on a book and Cyril Tolley, now in America, has also written one.

Egypt is soon to see its first professional prize fight. This is one evil, however, that can't not be blamed on the shoulder shakings of the late Miss Cleopatra.

Dempsey tells reporters he will fight Gibbons and then retire. This is the rather illogical result of last Summer's bout between Firpo and Willis to establish a logical contender.

Experts predict George Von Elm of Los Angeles will win the amateur golf championship within the next three years.

VANCOUVER NEGRO WINS

Bellingham, Wash., Nov. 12.—Joe Wilson, negro, Vancouver, B.C., knocked out Kid Stokes of Bellingham, formerly amateur welterweight champion of Alaska, with a right hook to the jaw, after one minute of fighting in the first round, of a scheduled six-round main event.

Buster Robinson, 120-pounder, Vancouver, won a decision over Al Gallagher of Bellingham, in the six-round semi-final.

WON DECISION

Denver, Nov. 12.—Eddie McCarty, Los Angeles lightweight won a three-round decision from Eddie Mack of Alamosa, Colo., here last night. Mack staged a comeback after being down for the count of nine three times in the second round, but was unable to overcome McCarty's lead on points.

Ten Players Sign
To Wear Colors of
Maroons This Year

Ty Arbor and Gordon Macfarlane Send in Their Contracts; a Young Team

Five New Faces Secured by Frank Patrick, Who is Satisfied With His Club

Vancouver, Nov. 12.—The signed contracts of Ty Arbor and Gordon Macfarlane were received yesterday by Frank Patrick, manager of the Vancouver Hockey Club. Arbor comes in a trade from Victoria although he has not actually played with that club. He was secured by Lester Patrick from Edmonton and turned over to Vancouver in exchange for Frank Foyston. Macfarlane played with Seattle last year.

Vancouver's 1924-25 entry in the Western Canada Hockey League now looks like this: Hugh Lehman, Arthur Duncan, Helge Bostrum, Joe Matte, Mickey Mackay, Billy Holmes, Ty Arbor, Bobby Boucher, Oliver Reinikka and Gordon Macfarlane.

It is the youngest professional team—taken in the aggregate—in the known world. Outside of Hugh Lehman, Mackay and Duncan, few of the gang are beyond the first voting age for males. There are ten men on the squad, five of them from last year and the other five, all youngsters, as strange to the Vancouver uniform as the "coolest" newly-weds to domestic wars.

PATRICK LIKES ARBOUR

The acquisition of Ty Arbor is a move that Frank Patrick desired for some time but couldn't see as happening until this week-end when Frank Foyston—not over-anxious to play hockey while the meat business in Seattle is so good—finally said he would play in Victoria with his old team-mates, Fraser, Holmes and Jack Walker.

Arbour is twenty-one or twenty-two, a natural left-winger and a proved diamond of the first water. Oliver Reinikka is another natural left-hander with hook check just as good as Mickey Mackay's at its best.

Arbour started with Edmonton last year and only the need of more players ever induced Kenny Mackenzie to part with him. He is regarded as one of the best forwards developed in the entire circuit.

The coming of Gordon Macfarlane to the Maroons is another welcome addition. Macfarlane is the versatile young giant who plays defence or the right wing with absolute disregard for the other fellow's interference.

Of Macfarlane Frank Patrick has this to say: "He is the only forward I have seen developing in the last ten years who instinctively knows the proper way to go through a defence."

When the Maroons take the ice against Edmonton on the night of December 1, the future is likely to be present this formation: Lehman, Duncan, Bostrum or Matte, Mackay, Arbor and Macfarlane.

"I think," Frank Patrick said yesterday, "that I have procured a team this year which will satisfy the most exacting patron. There is youth and speed in the bunch. We are likely to be the league in our first few games but I am satisfied when the boys hit their stride that it will take some wonderful playing to defeat them."

"I regard the Victoria club as very strong, too. They may be said to have secured the cream of the Seattle talent."

"I regard Arbor and Macfarlane—two youngsters with years of hockey ahead of them—as more valuable than veterans who will probably drop out of the game in a season or so."

"It will be seen readily," Mr. Patrick concluded, "that both Vancouver and Victoria have strengthened up. We do not propose to be the weak sisters in the new company which we have joined. I think, too, critics will agree with me that, on paper, at any rate, we look capable of at least holding our own in any professional company."

Calgary, Nov. 11.—En route to Winnipeg, where the Victoria Cougars will assemble for training, Lester Patrick, manager, passed through here this morning. He says that the Cougars will be the strongest team that ever played on the Coast, and that any team that beats them out in the championship race will have to play wonderful hockey.

Hamilton, Ont., Nov. 12.—Contrary to expectations, Joe Malone, former professional hockey player, will not coach the Hamilton team this season. He plans to referee, however.

Toronto, Nov. 12.—Dalton Meeking, formerly star centre player of Aurora Lee and Argonauts, has joined the Pittsburgh hockey team.

Dalton Meeking is a younger brother of Harry Meeking, of the Victoria Cougars.

SOOKIE WANTS GAMES
The Sooke Athletic Association wishes to announce that it has organized for the coming season and is looking forward to a few open dates.

The first basketball games are asked to communicate with the secretary, G. Waddington, Sooke Athletic Association.

BALL WRITERS ORGANIZE
Seattle, Nov. 12.—Edward R. Hughes of San Francisco was named president of the Baseball Writers' Association of the Pacific Coast formed here to-day and officially sanctioned by directors of the clubs in the Pacific Coast Baseball League.

MEXICO COMES TO BAT WITH A CHALLENGER FOR
HEAVYWEIGHT CROWN WORN BY JACK DEMPSEY

FROM LEFT TO RIGHT—FUENTE, WILLS, GIBBONS, FIRPO

By Joe Williams
New York, Nov. 12.—This business of snapping at the fists of Jack Dempsey is rapidly developing into an international posse, with no belligerent nation barred.

Consider the line-up:
Harry Wills, Senegambia.
Luis Angel Firpo, South America.
Jack Renault, Canada.
Tommy Gibbons, Ireland.
Tony Puente, Mexico.

Some rasping-voiced factuallist may die to a point of order and suggest that New Orleans is some distance removed from Senegambia and that the Gaelic St. Paul is lacking in the rich, dulcet, brogue of the native Dublin tongue.

Nevertheless, Wills at least possesses a Senegambian background and no one will gainsay the triple-distilled Irish ancestry of Mr. Gibbons.

Wherefore, on with the hunt.
FIRST MEXICAN HEAVY
Much is already known of the capabilities—or lack of them, as the case may be—of Wills, Gibbons, Firpo and Renault. Puente is a new name on the challenging list.

At a well-attended and enthusiastic meeting held at the Y.M.C.A. last week, a round table conference took place relative to the formation of a city and commercial basketball league. Considerable interest was shown and entries were called for. These must be handed in on Thursday night, when a second meeting will be held for organization purposes and election of officers.

It appears that four or five teams would enter the league. With such teams as the Y.M.C.A., Tillamums, Bluebirds, Normal and College, it is thought that a capable league could be operated.

OTHER LEAGUES
For other teams a Commercial League will be formed to be divided into one or more divisions, providing there are sufficient entries. It was suggested at the meeting that in order to keep the teams fighting for supremacy throughout the season, a system of promotion and relegation would provide greater interest and competition.

The formation of a ladies' league was also brought before the meeting and received well-deserved support. It is intended to form a league to take care of all entries that may be forthcoming.

The formation of a Lower Island Basketball League which would take in all local and rural teams, to play home and home games, was brought up, and letters from any outside teams interested would be appreciated. They should be sent direct to the secretary of the City League, care of Y.M.C.A.

Any club or individual interested in any or all of the above discussions is asked to be present to-morrow evening at the adjourned meeting in Room K at the Y.M.C.A.

CLUBS ENTERED
The following clubs have already shown considerable interest and intend to send in their entries to-morrow night: Spencer's, Hudson's Bay (both men's and ladies'), Canadian Puget Sound, E. G. Prior & Co., Y.M.C.A., Tillamums, Bluebirds, Gorge, Victoria College, Elvetham, Machine Gunners and Sons of England.

Further entries from the B.C. Telephone Company, Junior Moose, J.B. A.A., Fifth Regiment, Garrison, Civil Service, Normal School and High School are expected, and this should provide one of the best leagues ever organized in this city.

There is added interest in him because he is Mexican bred. The greatest Mexican fighter the game has ever known, Herrera flourished in the days of McGovern, Young Corbett, Kid Broad, Ed Nelson and that gang of licensed destructionists. None of them ever found Herrera a push-over. The dope on him is that he was a savage hitter and shrewd as a Shylock but none too gaseous.

His clash with Volgaist in 1912 was memorable. It ended in the thirteenth round—the devil round, as the Australians call it—with both men squirming on the floor.

HERRERA WAS GOOD
Rivers, however, never ceased to charge that he was jobbed out of the title. The following year Ritchie, Volgaist's successor, stopped the Mexican in eleven rounds, stopped him cold and clean.

Old-timers tell you Aurelio Herrera, also a lightweight, was the greatest Mexican fighter the game has ever known. Herrera flourished in the days of McGovern, Young Corbett, Kid Broad, Ed Nelson and that gang of licensed destructionists. None of them ever found Herrera a push-over. The dope on him is that he was a savage hitter and shrewd as a Shylock but none too gaseous.

GAMESS QUESTIONED
Rivers had the same weakness. When the going became tough he was ready to pick out a soft spot. Tradition has it that no Mexican will ever be a great fighter for that very reason.

Fuente, newest Dempsey challenger, newest Mexican fighter, hasn't been out long enough to establish his gameness or his fighting ability. He has a string of set-ups to his credit as well as a four-round point victory over Floyd Johnson, who has never been better than a second-gater.

To begin with, Fuente labours under a horrible handicap, is manager is Windy Windsor. Windy once had Dempsey but passed him up in favor of Fatty Meehan. This hardly qualifies him as a good picker.

Winnipeg Ruggers
Will go East if
They Win in West

Winnipeg, Nov. 12.—Western Canadian football clubs have not decided definitely as yet whether they will send a team east in quest of the Grey cup, but it is certain if the Winnipeg Victorias capture the western title they will travel to Toronto. Following the conclusion of the game here next Saturday between the 50th Battalion team of Calgary and the Vics, which will decide the championship, a meeting of the western officials will be held to decide the matter. Officials of the Vics are very keen to see the team go east should they win the championship.

Firpo Will Fight
Weinert To-night

New York, Nov. 12.—Louis Angel Firpo to-night will face Charley Weinert in a twelve-round no-decision bout. Firpo used Weinert as a final stepping-stone to his great battle with Dempsey last year, bowling Weinert into ten second oblivion in a match in Philadelphia.

RUGBY PRACTICE
All players of the Tillamum Athletic Club are requested to attend the usual workout at the Horse Show Building to-morrow night at 8 o'clock sharp.

evening at the adjourned meeting in Room K at the Y.M.C.A.

Toronto Believes
In Spending Money
For Winter Sports

Toronto, Nov. 12.—Toronto will spend approximately \$65,000 to provide winter sports for its citizens during the 1924-25 season. Provisions have been made for fifty-five skating rinks, fifty-one hockey and two curling rinks, fifteen children's slides and two toboggan slides.

Secret of Harris's
Success In Final
Game Is Revealed

Washington Players Tell of Strategy Used by Manager to Beat Giants

New York, Nov. 12.—The psychology employed by Manager Stanley Harris, of the Washington American League champions, in handling his pitchers in the final game of the 1924 world series, which has been the subject of much speculation ever since, was revealed to-day by a member of the Washington team close to Harris.

The number of innings each one of the four pitchers who participated in the game was to work and the exact time of the entrance and departure was outlined by Harris before the teams took the field, according to the informant. And this schedule was followed to the letter, except for two circumstances, one of which was the fact that the game went into extra innings.

CROSSED HIS MANAGER

The other exception was in the case of "Curly" Ogden, a young pitcher, who started on the mound for the Senators. According to Harris's plans, Ogden was to pitch to but one man, Lindstrom, and then be relegated to the bench, but Ogden, anxious to make good, crossed his manager by fanning Lindstrom, thereby giving Harris no legitimate excuse for yanking him.

Frish, the next man to face Ogden, walked, and without even a glance at Harris, Ogden walked too. George Morridge, veteran left-hander, took his place on the mound, there to stay until McGraw shifted him. He took out his left-handed pitcher.

It was Bill Terry, Giant first baseman, who threw the scare into Harris. McGraw, who had been watching this strategy to get him out of the way. And fans who followed the fortunes of the teams in the last game, a dramatic contest between McGraw and Terry, Harris switched with him and dispatched Marberry to the mound.

WORKED PERFECTLY

The latter was scheduled until the ninth, when Johnson with orders to put everything he had into every pitch, was to come in when the sun had set and the shadows made his fast one even more deceptive.

And this strategy worked perfectly. McGraw had shifted his team to combat Morridge and Terry was in, ineligible to return. Johnson's entrance into the game was a dramatic move. The score was tied, the bases clean and Walter was "on his own." To win meant regaining his prestige lost, when he was beaten by the Giants. To lose meant absolute failure, but Walter rose to the occasion and came through with flying colors.

BERLENBACH INJURED

New York, Nov. 12.—The twelve-round match slated between Paul Berlenbach, New York light heavyweight, and Tony Marullo, of San Francisco, at Madison Square Garden Friday night, was called off to-day after an injury Berlenbach suffered to his left hand in training.

Berlenbach went before the State Athletic Commission's physician for an examination to determine the extent of his mishap, but in the meantime, the referee, Richard J. Foul, in the main event of the fight. Efforts were being made to obtain another opponent for Marullo.

Low Blow Brings
Decision to Man
Who Holds Title

Seattle, Nov. 12.—With only thirty-five seconds to go before the final going, George Spencer of San Francisco hit Tod Morgan of Seattle, Pacific Coast featherweight champion, a low blow and the referee awarded Morgan the decision on a foul in the main event of a smoker here last night.

Morgan asked to have the bout continue but the referee waved him to his corner. The Seattle boy, after two even rounds won the remaining four of the bout without question. At close quarters Morgan did his most damage and had Spencer on the defensive most of the time.

Henry Geysel of Seattle defeated Lakey Morrow of Spokane, lightweight, in a six-round semi-wrap bout after a hard fight. Morrow reeled and staggered and seemed ready to drop several times, but he rallied time and again. On many occasions he had Geysel on the defensive and knocked him down once.

Mickey Hannon of Seattle and Billy Menden of Tacoma, junior lightweights, fought a four-round draw. Danny Matthews, of Port Angeles, a featherweight, won from Brownie Villio of Seattle, and Ed Smith of Spokane, light heavyweight, knocked out Helme Zimmerman of Vancouver, B.C., in the second round of the curtain-raiser.

Mark's won by a small score from St. John's. The teams were: St. Mark's—Cross, Bethel 2, Hill 2, St. John's—Cotton, Kirby, Lavan 2, Hirst, Nesbitt.

In the intermediate girls St. John's. The teams were: Andronomics—Mitchell 2, Collier 4, Thomson 2, Taylor 2, Warnock 2, St. John's—Cotton, Kirby, Lavan 2, Hirst, Nesbitt.

Two Soccer Teams
Fighting For Lead
In First Division

West's and Wards Tied For League Leadership; Full Card of Games Saturday

Entries Close on Nov. 17 For Combination Cup Knock-out Series

Two teams will be battling for the leadership of the First Division on Saturday. As a result of the Wards losing two points on a protest lodged by the Veterans' club, they are now tied with the West's for the premier position. Another tie exists for third place the Veterans and Esquimalt being the joint occupants, while the Sons of England are in fifth position and the United Services last.

The Games arranged for Saturday are as follows:
Esquimalt vs. North Wards at the Royal Athletic Park. Referee, Stokes.
Veterans vs. United Services at Beacon Hill. Referee, Oliver.

At Work Point the Sons of England will be fighting to retain their position at the top of the division and also their record of not having suffered defeat this season. The last time these eleven clashed the game ended in a draw. The dockyarders, who returned to their old form last week by scoring a fine win over the United Services, are

DAVID SPENCER, LIMITED

Store Hours: 9 a.m. to 6 p.m.; Wednesday, 1 p.m.; Saturday, 8 p.m.

Group of Bargains From Weilers' Stock of Carpets, Linens, Drapery and Furniture

 —Boys' Store, Lower Main Floor

GIVE B.C. BEER AND RIGHT NOW, LABOR MEMBER DEMANDS

Coast May Want "Fizz" But Fernie Wants Real Kick, Says Uphill

Are Dry Vancouver Members to Rule B.C.? He Asks

Beer at last battered its way into the Legislature yesterday, when Thomas Uphill, Labor, Fernie, came out flatly with a demand that the electors of his riding be given beer and right away.

Mr. Uphill wanted to know what was to happen in regard to beer. He said the understanding was that the districts which voted for beer should have it, while those opposing it would not see beer sold.

"Is Vancouver to rule the Province?" asked Mr. Uphill. "I have heard so, and if that is true let us get down to economy and have the Vancouver City Council run the country. I have heard it said that certain members on the Government side have declared that they would resign before they would stand for beer. If so I say let them resign, the sooner the better. And Vancouver wants to drink fine all right, but my constituents voted four to one for beer and I want to see something done and done quickly."

Mr. Uphill pleaded for amendments to the Workmen's Compensation Act, amendments which would give the workmen and their dependents fuller protection. He cited instances where he claimed that harsh treatment had been meted out.

The Fernie member argued that where medical attention had been given to the satisfaction of the patients, the Workmen's Compensation Board had refused payments for the same. He cited a bill of this nature for over \$600.

Mr. Uphill then waged war on the Government for permitting such a condition to exist. He quoted a Latin phrase in expressing his indignation. Major Burde objected to such a distortion of words.

"Well, my friend from Alberni, unfortunately has not had the advantage of the education I have," the Irish member retorted. Touching upon the administration of justice, the Fernie member referred to the train disaster in which Peter Verigin, John McKie and others lost their lives. He spoke of two young men who were on the train which was wrecked, and who were placed in a cell in Vancouver upon their arrival there. "Was that justice?" he asked. "I say there are two codes of justice, one for the rich and one for the poor. These boys were clean and innocent, but what are their impressions now?"

SAYS GOVERNMENT BREAKING PLEDGES TO THE OKANAGAN

Decent People Revolting at Repudiation of Promises, Says Cochrane

The Oliver Government is deliberately breaking solemn pledges made to the interior electors in the North Okanagan by-election. O. H. Cochrane, the new Conservative Member for North Okanagan, charged in the Legislature yesterday.

Mr. Cochrane did not blame the Government for appointing Dr. K. C. Macdonald to the Cabinet, but he did complain of the Liberal action in the by-election. Promises had been made to the North Okanagan electors and he wanted to know when they were to be carried out. He declared that the district had been promised an irrigation loan of \$43,000, but added that he did believe the Hon. T. D. Pattullo, Minister of Lands, had known of this assurance. Mr. Cochrane quoted Dr. Macdonald as making a flat promise of this expenditure.

"When any government or any minister of any government comes into a constituency and promises an expenditure of this kind and then, when the electors have voted against the government, that promise is repudiated, then I say that decent-thinking people will not stand this kind of thing much longer!" Mr. Cochrane exclaimed.

The Conservative Member protested against the "importation of voters" into North Okanagan from such points as Vancouver and Regina. Even two civil servants had come to the riding to vote, he declared.

"Again I say decent people are not going to stand it," he declared. Mr. Cochrane outlined the needs of his riding and urged the Government to improve the North Okanagan roads. The big need in the interior, he said, was assistance to the fruit growers in irrigation works. He complained that the condition of the fruit industry was such that irrigated land is no more valuable now than in the days before water was laid upon it.

"It has come to this, that the interior farmers, through no fault of their own, are not going to be able to carry on," he warned. He declared that taxes collected in the interior were being used to pave roads on the Coast and to make deficits in the P.G.E.—"the Please Go Easy Railway."

When Mr. Pattullo demanded who would pay for the assistance which Mr. Cochrane demanded for the fruit growers, the interior member replied: "The rest of the Province, and that is a fair proposition."

The Victoria British-Israel Association will meet on Thursday evening next in Room 5, Surrey Block, Yates Street, at 9 o'clock. Mr. Blackaller will give an address. All are welcome.

BOTH PARTIES JOIN IN HIGH TRIBUTES TO LATE MR. WADE

House Formally Records Regret at Agent-General's Death

Best London Representative B.C. Has Ever Had, Says Pooley

Remarkable tributes were paid to the late F. C. Wade, K.C., British Columbia Agent-General in London, yesterday when the Legislature formally placed on record its regret at his death. A formal resolution, expressing the feelings of the House, was carried unanimously after Liberal and Conservative leaders had joined in praising Mr. Wade's work.

"Mr. Wade took a very deep interest in everything that pertained to British Columbia," Premier Oliver said in moving the resolution of regret. "He was a very energetic supporter of the promotion of imperial unity in the Empire by preferential trade. Under him nothing that could be done was left undone. I am sure that there will be unanimity in this House in regretting the loss which this Province has sustained in Mr. Wade's death."

BEST AGENT-GENERAL

"While he was opposed to us politically, we feel; and our political friends here feel in England, that no Agent-General has ever served this Province as well as Mr. Wade," said R. H. Pooley, Conservative Leader. "He took a wonderful interest in the affairs of British Columbia. He was a fine gentleman and a loyal Canadian. His work did a great deal to advertise British Columbia in all parts of the world. In his office he was untiring and everyone calling at B.C. House was assured not only that he would receive the utmost courtesy but every assistance from the Agent-General."

"It will be a long time before British Columbia can get an Agent-General to carry out his duties as well as Mr. Wade."

Major Richard Burde, Alberni, paid a warm personal tribute to Mr. Wade. "I first met Mr. Wade," he said, "when I was a newsboy in Winnipeg. No one in British Columbia knew him as long as I did. Mr. Wade was not only a scholar and a gentleman, but a two-fisted fighting man. I shall never forget his kindness to us small newsboys. This country has lost a noble Agent-General and the world a splendid gentleman."

Hon. T. D. Pattullo, Minister of Lands, recalled the days when he and Mr. Wade had been members of the party which had gone into the Yukon to establish government there. In this work, he said, Mr. Wade had quickly distinguished himself.

"He was a man of strong opinions and an unflinching advocate of them," Mr. Pattullo declared. "In London he added to the prestige not only of this Province, but of all other agent-generals in Britain. He had a wonderful knowledge of conditions in England and, indeed, he was an authority on London. British Columbia's interests came first and foremost with him."

D. A. Stoddard, Cariboo, told the House that he had been a school-fellow of the late Agent-General, and it was very pleasing to him, he said, to hear such glowing tributes to his old friend.

A meeting of St. Martin's Guild will be held on Thursday afternoon at 2.30 at Mrs. Boston's, Dwyer Avenue. All members are requested to attend.

Famous Old Recipe for Cough Syrup

Readily and cheaply made at home, but it beats them all for quick results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup at home. It is simple and cheap but it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less. Get 2½ ounces of Pinex from any drugstore, pour it into a 16-oz. bottle and add plain granulated sugar syrup to make 16 ounces. If you prefer, use clarified molasses, honey or corn syrup instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, hoarseness or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its healing effect on the membranes. Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

LECTURE ON LONDON

It is true that once a person has visited London he is always interested in the life of the metropolis. Rev. J. Williams Ogden has a wonderful lecture on the "economic" phase of London, which is entitled "How London Lives." It is brimful of information and is presented in a most interesting fashion. The lecture is illustrated by 150 lantern slides, and will be given in St. Andrew's, Presbyterian Church Friday, Nov. 21.

The brush that really brushes

THOROUGH brushing requires a brush that reaches every hair and penetrates to the scalp.

That is why the Prophylactic Penetrator is a real brush. It does the work expected of it and does it thoroughly.

It brushes out every strand of hair quickly and easily. The tangles are removed without that harmful tugging which breaks the hair. The daily brushing becomes less of a labor and more of a comfort.

The stiff, springy bristles are set in widely separated tufts and penetrate the thickest hair.

Examine this brush at any store where brushes are sold and you will see why it brushes through the hair. Sold always in the yellow box.

—Men's Clothing, Main Floor

DAVID SPENCER, LIMITED

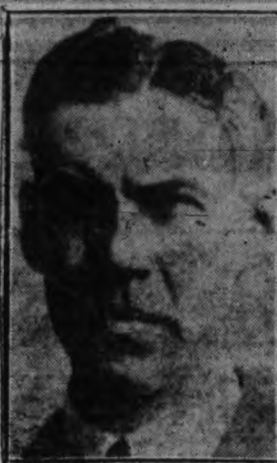

IN CANADA'S FAR NORTH—Above are shown a few of the interesting views of the Far North, brought back by Dr. H. H. Innis of the University of Toronto, and J. A. Long of North Toronto College, after a 2,000-mile canoe trip on the Peace River, Great Slave Lake, and the Laird and Mackenzie Rivers. Left, Alex. Kennedy, well known dog runner and trail breaker, who served under Wolseley in the Nile expedition. Upper right is a hunter's "cache" on the Peace River. At the lower right is shown the grave of a small Indian girl at Fitzgerald. The bereaved parents placed the child's bed over her last resting place in lieu of a tombstone.

DUKE GREET'S BALL PLAYERS—The Duke of York, brother of the Prince of Wales, attended one of the games between the Chicago White Sox and New York Giants in London and shook hands with the players.

LAST LOOK—When Samuel H. Lefkowitz comes home to New York, his smile no longer will reveal a couple of thousand dollars in diamonds. His Paris dentist is to remove them from his teeth. Just before he sailed abroad, a hold-up man tried to get them and Sam became panicky.

PROBES RADIO SECRETS—H. O. Merriman, who, for the Research Council of Canada, will conduct the investigation into the sources of radio interference.

FIRST WOMAN IN EAST—Mrs. Mary T. Norton, elected to the United States House of Representatives from Jersey City. She is a Democrat and the first woman from east of the Mississippi to gain a seat in Congress.

LATEST INVENTION—Above is a photograph of a small section of the phonofilm, the marvelous new invention, by means of which characters on the screen talk and sing, orchestras play and incidental noises of all kinds are reproduced. The photo above shows a section of the film depicting Lincoln delivering his Gettysburg address. The narrow strip on the left of the picture is the address itself the sound waves having been changed to light waves and photographed with the picture proper.

DOHERTY LEAVING COURT—E. L. Doherty (right) is seen here leaving the federal courtroom in Los Angeles where the government's suit to cancel the Elk Hills naval oil reserve is being heard. Doherty is assisting Norman Bridges (left) a fellow-officer of the Pan-American Oil Company, down the steps.

MEXICO RECALLS CONSULS—Canada may soon lose, for a time at least, the most enjoyable relationships she has entertained for several prominent Mexican consular officials and their delightful families, because of the action taken by the Mexican government which has ordered all of its consulates in Canada and other British Dominions to be closed on November 23. Left to right, Senor Dominguez, acting consul in Toronto; Senorita Dominguez and Senor Fernandez, Mexican consul-general to Canada.

EXPLORER RETURNS WITH ESKIMOS—Knud Rasmussen, famous Danish explorer, has returned from the Arctic with two Eskimos. He will show them the white man's civilization and then take them back to their home in Greenland. This picture, taken when they reached Minneapolis, shows them, left to right, Leo Hanson, cameraman who accompanied the explorer; Metek, Eskimo youth; Anarylunguak, Eskimo girl, and Rasmussen.

MEXICAN WINNER—Gerardo Machado, newly-elected president of Cuba, who defeated the former chief executive, Gen. Menocal, in the recent polls.

PACIFIST—Kemal Paasha, who, in opening the twentieth national assembly at Angora declared Turkey was on friendly terms with the great powers.

MARCELS WAY—Daddy is a bank president, but Frances Klein proved to him that she could "marcel" her way through college. Fifteen other girls at Stephens College, Mo., thought the idea a good one and successfully tried it. "Every flapper a worker instead of a loafer," preaches Frances.

MEET MRS. ARNALULUNGUAK—She's an Eskimo lady whose name means "little woman." Knud Rasmussen, Danish explorer, is introducing her to Washington society.

QUARTER CENTURY AGO—This pointed street corner in the New York of 1900 soon was to become the site of the famous sky-scraping Flatiron Building. Tall buildings and speeding traffic hadn't come into style at that day.

MAKING GOLD FROM MERCURY—Dr. Nagasaka, Japanese scientist, declares he has discovered a way to transform mercury into gold, and gold into platinum. He is seen here explaining the process to some of his aides in his laboratories at the Imperial University in Tokyo.

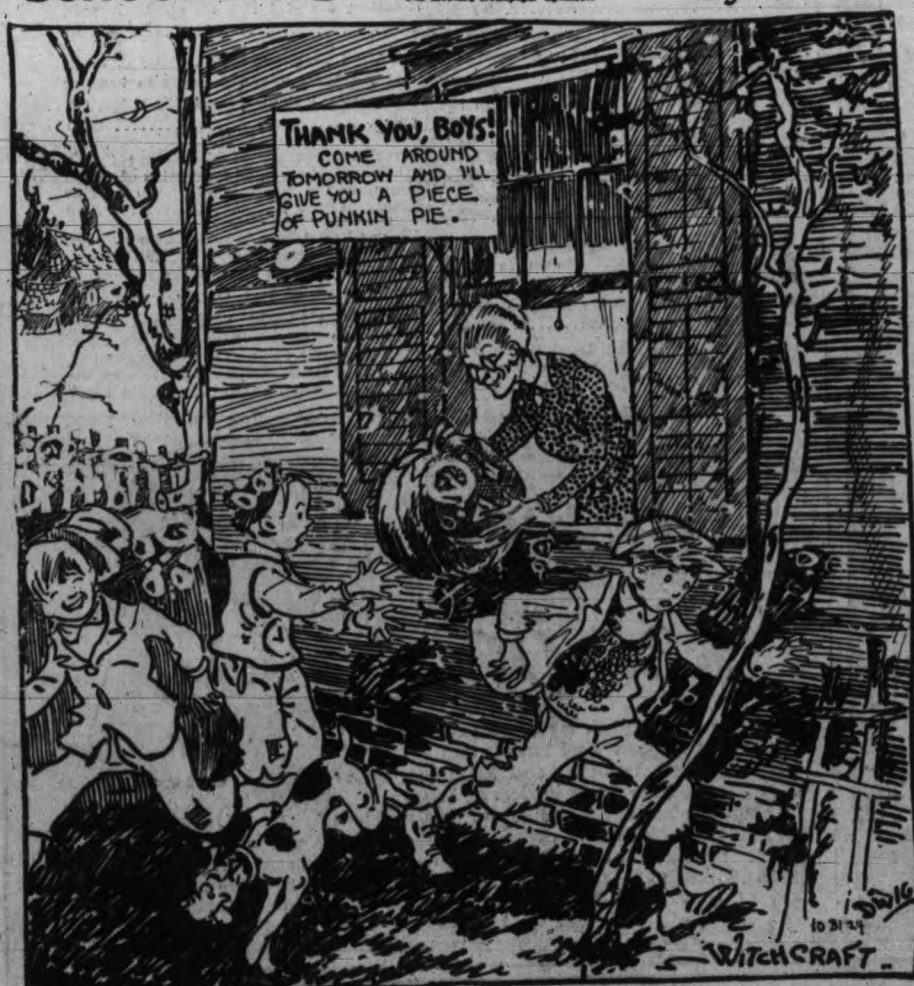

ROOTING COSTS HIM VOICE—Alf. Pierce, rubber-down of Queen's Rugby team, has lost his voice from thirty years of cheering.

Wall Street TO-DAY

Last Minute News on Stocks and Financial Affairs

CAST IRON PIPE HEADS WOULD RISE

New York, N.Y., Nov. 12 (By R. P. Clark & Co., Ltd.)—Another session featured by a turnover exceeding the two million share mark. The list as a whole was more reactionary in tone to-day despite the fact that some new high prices were established in several parts of the list. News touching on the oil situation was of a more constructive character, some gasoline prices being reported as having increased in volume and premium reported as being paid in certain sections for crude oil. It seems as though a general advance in crude prices is imminent. The outside demand for stocks was again rather heavy but it seems as though the volume of profit taking and distributive sales being reached proportionately large enough for the present stock advances growing out of new outside buying power. Reports from the steel industry are more encouraging and freight loadings on the railroads continue around record figures. In substance the general run of trade reports are daily taking on a more optimistic tone. As stated previously it looks as though selling pressure has been relieved and sufficient to check the upswing in values and should there be a subsidence of the new outside demand, there may be an extension of the reaction which was somewhat evident to-day. A further setback in quotations would not be illogical at this time and could be looked upon as being a natural sequence in a market that has further possibilities of the main trend being upward.

New York, Nov. 12 (By B.C. Bond Corporation)—The Wall Street Journal in its market report this afternoon says:

After advancing almost perpendicularly for a whole week leading stocks finally ran into heavy profit-taking which proved effective in temporarily arresting the violent upward sweep of prices. Simultaneously, however, other stocks continued to surge into new high ground demonstrating that the reactionary tendency among the principal issues was wholly due to technical causes. The market proved its fundamentally bullish character by staging a spectacular demonstration in a special issue. Cast iron pipe heads featured in this respect, moving up in a fashion that was reminiscent of the wartime movements of General Motors or Bethlehem Steel.

Oil stocks have consolidated a sufficient amount of ground recently gained to warrant them continuing their advance. General Motors, Bethlehem Steel, and Phillips Petroleum are among the leaders. Well informed oil men are not only very bullish on the industry and are talking \$2 a share for March, but are following up their bullish expressions with actual orders. This house favors Pure Oil, Standard Oil of New Jersey, Maryland, Phillips Petroleum, Standard Oil of New York, Standard Oil of California, Vacuum, Standard of Indiana, Sinclair, Pacific Petroleum, and General Petroleum. Favorable results in the use of liquid chlorine in treating gasoline have been obtained by the Pan-American Petroleum at its refineries in this country and Mexico. This chemical has been used for several months and has definitely established its success. Numerous oil companies in this country are also using this chemical, the sale of which has added to the earnings of Matheson-Alkali.

Continental Can broke on the announcement that directors had asked issuance of additional stock at \$24 a share to common and preferred holders in proportion of 15 per cent. of present holdings. Foundation Company had a sharp drop immediately after the regular quarterly dividend. Wall Street had anticipated an increase in the \$6 rate to an \$8.

Interest identified with the Pipe business this year has exceeded all expectations and prices have held firm despite the fact that pig iron dropped materially in the month ago. Pipe's earnings, as a consequence, are running greatly in excess of \$21.92 a share earned on the 120,000 common shares last year. The company has already declared \$1 a share against the accrued dividends on the preferred stock, leaving the balance due preferred stockholders to about \$5 a share.

CONTINUING MARKET

Chicago, Ill., Nov. 12 (By R. P. Clark & Co., Ltd.)—Wheat: In view of all the news the final turn in wheat prices to-day was significant. Radically lower cables came from Argentina and yesterday's break at Winnipeg all encouraged free selling, but nevertheless there was but little liquidation pressure on the decline and on the contrary there was good support, with some buying against export business. There was not much wheat offered over night so the fact that the market was holding was light was not significant. Foreigners are admitting a deficiency now in world supplies and the fundamental conditions are strong. Duluth is getting the big run of wheat now, but is shipping out more than received. Cash premiums here half to one cent better, and the outside points cash markets were firm, while country sales are light. With all our tremendous accumulation of wheat, world's available stocks are only 14,000,000 more than a year ago, which shows how closely balanced wheat supplies and requirements are likely to be before the season is much older. We think higher prices will be witnessed in the not distant future.

Corn: Showed independent strength and absorbed liberal selling on the rallies in great fashion, the government report was bullish on

WINNIPEG GRAIN

Winnipeg, Nov. 12—A good class of buying which came out shortly after the opening of the wheat market to-day sent prices upward after initial quotations had shown losses ranging from 1 1/2 to 2 1/2 cents.

Early weakness here was ascribed to weaker Liverpool cables, but strength came from mid-season sent shorts into the pit to cover, the market holding firm until the close, which was around the high of the day, with a net gain of 1/2 for November, 1 1/2 for December and 1 1/2 for May.

BEDTIME STORY

Uncle Wiggily Mends A Plate

Copyright, 1924, by McClure Newspaper Syndicate.

By Howard R. Garis

Before you can mend a plate, of course, a plate must be broken. So I shall begin this story by telling you how Uncle Wiggily broke the plate. Then you shall hear how he mended it and what happened while he was doing that.

One day, in his hollow stump bungalow, Uncle Wiggily called to Nurse Jane:

"Oh, come here! Come to the kitchen and see me make a plate stand up on the end of my pink twinkling nose!"

"Why in the world are you making a plate stand up on your pink nose?" asked Nurse Jane, surprised like, not to say displeased.

"Well, I saw a circus juggler in the moving pictures balance a plate on the nose," said Uncle Wiggily. "And I thought if he can do that, I can do it. And I'm going to!"

"Oh, such a rabbit as he is!" sighed the muskrat lady housekeeper as she laid aside her sewing and went toward the kitchen. There she saw Uncle Wiggily balancing a plate on his nose.

"Wiggily!" suddenly cried Nurse Jane. "That's one of my best dinner plates! Take an old one. You might drop that and break it. Stop that trick at once, Uncle Wiggily!"

She spoke so quickly that the rabbit bit gentleman jumped. The plate slid off his nose, fell to the floor and was broken into three pieces. I mean the plate was broken—not the bunny's nose. For of course a nose can be broken, but Uncle Wiggily's wasn't—at least this time. But the plate was smashed.

"Oh, my lovely dinner dish!" cried Nurse Jane. "It's broken! You shouldn't have tried to balance it on your nose, Wiggily!"

"But if you hadn't spoken to me so suddenly I wouldn't have jumped, the plate wouldn't have fallen and it wouldn't have been broken, Janie!" said the bunny. "But it was my fault, I suppose, for trying to act like the movies, so I'll mend your plate for you, Miss Fussy Wuzzy."

"Can you mend it?" asked Nurse Jane.

"Of course I can!" said the bunny. "I'll hop to the store, get a tube of glue or cement, and mend the plate."

Uncle Wiggily got the glue and then he sat down on a chair in the kitchen and began to mend the plate. He took two of the broken pieces, put glue on the edges and pressed them together. He held them until they were well fastened. Then he took up the third piece of the broken plate and glued that fast to the other two.

"Now the plate is mended," said

AN EXCEPTIONAL BARGAIN

75 ACRES (more or less) of first-class land, situated on a main paved highway, close to Royal Oak and within easy reach of Victoria. There are about 12 ACRES CULTIVATED and the balance light clearing. The property has a gentle southern slope and commands a lovely view. This is an admirable spot for a country home or presents itself as an ideal farming proposition. For either purpose it is a genuine snap at the price. This property has been placed on the market and will go quick at the above price. Why not look it over to-day?

ONLY \$15 PER ACRE

NEW SERIAL STORY

Christine of the Hungry Heart

A Thrilling Love Story by Kathleen Norris

VII.—DREAMS AND A HUSBAND

Christine was too inexperienced in the analysis of her own emotions, and too averse to any recognition of passion as a possible element in her life, to appreciate the situation that had sprung up as a result of her meeting with Dr. Montague.

She only knew that she walked on air. Her cheeks burned, her mouth was dry, and her appetite had completely disappeared. She played with her food indifferently, an absent smile in her eyes.

Everything—every thought—was tributary now to that strange, wheeling dream of felicity and sweetness in which she moved. The sight of the postman thrilled her, even though she could not possibly have a letter from Dr. Montague.

The telephone bell made her heart stand still, although she knew that her new friend, three hundred miles away, could not be calling.

As for the places that held special memories, she never passed them without sensations so poignant as to make her feel that she was still in the street, if she were walking, or lost the thread of her conversation or her thoughts, if she were in the motor-car.

Whenever she went into the library, the innocent-looking room where the two big chairs stood in their places beside the reading table, under Betty-Lou's portrait, memories so sweet and so powerful swept over her that she would feel the salt water in her mouth, and her finger-tips growing chilly, and her heart beating like a bird in her breast.

She had had flowers from Dr. Montague, on the morning following the dinner party she had known so well. And there had been a card, with just the right friendly word scribbled upon it.

Christine had expected that, too. Presently she could write that little note, carefully casual, thanking him for the flowers.

There was a pause. But meanwhile, there was the inevitable scene with Stuart. He came home the third day, with an incoherent explanation of having had to be in Boston. Christine did not for an instant believe that he had been in Boston—not the it mattered.

She came into the house, late in the afternoon, sensitive instantly that Stuart was there. Did he bring an absolute atmosphere of gloom with him? Sometimes she thought so.

At all events, she did not need Ida's serious backward nod to assure her that the master of the house had returned. In compliance with a request from his mother, she immediately telephoned the older woman the mere fact, and went upstairs with a little bitter twist to her mouth.

Mrs. Knight senior had said: "Oh, thank God! My dear, now we must pray with all our might that this will be the very last time! Poor fellow—poor fellow—he is to be pitied. He is to be blamed, of course—bitterly—blamed—but pitied too—we mustn't forget that! We mustn't forget that we don't know what his temptations are."

Christine, quietly and deliberately, laid aside her wraps, changed her gown, and crossed the upper hallway to the door of her husband's room. Since Betty-Lou's birth, when Cordelia and the baby had occupied a small room next to Christine's, at night, Stuart had taken himself to the quieter regions in the back of the house.

No fear of waking him. The room was darkened, on a bright March afternoon, when the buds were forming red and hard, on the maples outside his windows, and the willows on Rock Creek were fountains of shy green. The air was close, Stuart's clothes were flung on a chair, even Ida, who was sometimes housemaid and sometimes valet, had not intruded as yet.

The bed was a great hump of blanket and satin comforter, into which the delicate linen spread had been inextricably jumbled. All that his wife could see of Stuart was a black head, the long silky strands already showing bald spaces, pressed face into the beautiful linen of the pillow.

She peeped in again at seven, and after a long, lonely, introspective evening again at ten. This time Stuart's mother was with her, and he was heavily, stupidly awake.

The elder Mrs. Knight had had a

formal dinner engagement, and had kept it. Christine had been promised for a dinner, too, and ordinarily she would have gone to it. But she had made for her absent husband the excuses for which their friends had now come to look. Beautiful and gallant and entirely composed, she would have offered the flimsy explanation, knowing that they did not believe it, and that they knew she knew they did not, and would have gone on her way, unchanged, and all the more mysteriously fascinating for her humiliation.

But tonight, to the infinite distress of her mother-in-law, Christine had announced, with quiet positiveness, that she would not go to the Stars.

"I cannot," she had said simply. And Stuart's mother had not been able to find a word to say. But this new attitude filled the older woman with fears; with rebellion and anger and tears she could deal, as the wives and mothers of weak and sinful men had dealt for generations. Any other position confused and alarmed her. What did Christine mean by this open acknowledgment of poor Stuart's failure as a husband? What would be the outcome of this bewildering treatment of the situation? Stuart was dreadful, of course—and it was extremely trying all round. But—where was Christine's new indifference, and composure, and alienation leading them?

Mrs. Knight could not get the miserable situation out of her head, and she finally interrupted her bridge game, sighing as she did so, and started for her son's house.

She found Christine alone, before a fire in her bedroom. The girl looked neither distressed nor seemed angry. She kissed her mother-in-law dutifully, and announced that she had been upon the point of taking another peep into Stuart's room.

"Naughty boy," his mother said severely, sitting down. "He doesn't deserve that two good women should worry over him!"

Christine made no comment upon this, she merely looked into the fire. "And yet," continued Mrs. Knight, somewhat tentatively, "good women have been doing that, I suppose, since time began!"

"I suppose so," agreed Christine lifelessly.

"And I think, in your place, I should have a good scolding ready for him," his mother continued spiritedly. "Why don't you walk into Betty's, and order yourself the very prettiest string of pearls you can find tomorrow, and simply say to her, 'This is my pearl! You waste money your way, and I'll keep you with you! It seems to me I would finish the older woman, with a great air of meeting the situation effectively."

This was the passing generation. Christine said an inward prayer for patience.

"Strictly speaking, of course, these unfortunate attacks of his, are not sin," Mrs. Knight presently reminded her daughter-in-law gently. "Men used to think things of them—we feel differently, and I think we are right. But drunkenness is not essentially bad, of course. It is only in its effects—"

Christine was silent.

"And I feel this about Stuart," his mother presently began again, briskly after another pause. "He admires women of course, and when he is with Willy Taylor and Bill Larsen I don't doubt but that sometimes they associate with—I don't know, and I don't want to know. But Stuart is essentially pure—I feel that!"

"He has been muttering about 'Paula' tonight, whoever she is!" his young wife said dryly. "And as the other woman's face darkened with a resentful and mortified flush, Christine rose. "Come—let's see if he is awake!"

Tomorrow—A Prodigal—and Primrose

Objections Raised To Duel Involving Gen. P. Garibaldi

Rome, Nov. 12 (Associated Press).—General Pepino Garibaldi, grandson of the Italian patriot, named Deputies Bendiconga and Cimarrini to act as his seconds in a duel with Dr. Rinaldo Balbo, commander-in-chief of the Fascist national militia, who on Friday sent a challenge to Garibaldi.

Mr. and Mrs. F. Sherwood spent the week-end with Mr. and Mrs. Heather at Nanos Bay.

Miss C. Ford spent Thanksgiving with friends in Victoria.

Mr. E. Rowa visited friends in Victoria for the week-end.

Mr. F. Bledsoe left on Saturday to spend the week-end in Vancouver.

Mr. George Forrest has secured the contract for repairing the Dominion Government wharf at Port Alberni, and expects to start work on it this week.

Mr. E. M. Whyte has picked a number of ripe strawberries in his garden during the past week. They are Macdonalds and are of good size and flavor for this time of year.

Mr. F. C. Smith and infant daughter, Mary Louise, returned from Victoria last week and at present are guests of Mrs. Smith's parents, Mr. and Mrs. A. Hamilton of Brownings Harbor.

The winners in last week's whist drive were Miss B. Dugger and Mr. E. Cartmell, the consolation prizes going to Mrs. Bell and Mr. Clague.

Misses Boyd and Owen spent the week-end with relatives in Vancouver.

Mrs. John Gibson and family are leaving to-day for Powell River, where they will reside.

MORTGAGE SALE

Eight rooms, modern in every way, well planned and thoroughly constructed of young pine, six months. The place is situated at \$5,500 and the balance on easy terms to a reliable party. This is one of the best bargains on the market.

A. A. McHANEY, Exclusive Agent

400-408 Bayward Bldg., 1207 Douglas St.

French to Import Cattle and Sheep

Paris, Nov. 12.—To bring down the price of the family steaks and chops, the Federation of French Provision Traders has submitted to Premier Herriot a scheme for the importation on the hoof of 70,000 sheep and 20,000 cattle from Argentina, Uruguay and Abyssinia. The federation spokesman claimed that this imported meat would be at least ten cents a pound under the price of the home-grown article, and succeeded in convincing the Premier to the extent that the latter agreed to recommend that the Minister of Agriculture permit the plan to go into operation.

Davis is to Leave Coolidge Cabinet

Washington, Nov. 12.—Secretary Davis of the Labor Department has informed President Coolidge he wishes to retire from the Cabinet after March 4, next. Davis is the only Cabinet member who has indicated he desires to retire, it was announced officially at the White House. Meanwhile, it was said, the President has given no consideration to possible changes in his Cabinet, and he has expressed the hope Mr. Davis will remain.

Two Girls Burned To Death To-day in Owen Sound, Ont.

Owen Sound, Ont., Nov. 12.—In a fire which destroyed their home, Helen and Loretta Featherstone, eight and nine years, respectively, were burned to death early this morning and their grandmother, Mrs. Fred Featherstone, with whom they were living, was probably fatally burned.

The fire broke out in the early morning, when the girls were in bed, and the grandmother was sitting up. The fire spread rapidly, and the girls were unable to escape.

The fire was caused by a gas stove which had been left burning unattended. The fire spread to the bed, and the girls were unable to escape.

NO COMPULSORY TAX COLLECTIONS TO BE SOUGHT**Proposed Plebiscite Rejected By Seven Votes to Three**

No compulsory powers to collect civic taxes monthly instead of annually will be sought by the City Council, which voted down a motion to that end last evening.

The plebiscite asked for a vote on the principle of payment in monthly instalments, and that newspaper publicity should be given to the pros and cons of the scheme in its advantages to the city treasury. Alderman Marchant reviewed the history of the situation, and declared it "rather a reasonable thing" that the opinion of the electors should be taken. He estimated that beginning with a saving of \$40,000 such an amount would gradually increase, until the bank interest on the annual loan gradually disappeared. He could see no objection to its adoption in a city municipality, but he foresaw difficulty in applying the principle to a rural municipality.

He did not agree that there was plenty of opportunity to pay in instalments under the present plan, as the policy prevailing to-day would pass from the permissive to the mandatory stage.

Turning to the principle of how to submit the plebiscite Alderman Marchant asserted that all would have a fair opportunity if the case pro and con were placed before them. He believed eighty per cent. of the citizens received their incomes monthly, and could readily meet their obligations. He thought more money could be raised for the city than by the present plan.

Alderman Todd declared the

Alderman Marchant said so important a subject deserved careful consideration.

Alderman Todd disputed the statement that \$40,000 would be saved.

Alderman Sargent declared that they wanted a spirit of tranquillity. The present system was working well with optional instalment payments, and why make a change to a compulsory monthly system? The city would do far better to remain as it had, and get in what money was available.

Alderman Woodward expressed the view that every effort to secure money should be pressed, and he could see no difficulty in using the machinery they already had to conduct the plan.

Only Alderman Marchant, Dewar and Woodward voted for the motion.

**SIMPLIFY PLAN OF ADJUSTMENT****Corporation Counsel Makes Recommendation to Council, Which is Approved**

To meet the suggestions of E. G. Long, counsel for the Dominion Securities Corporation, in connection with the legislation embodied in the city's private bill with regard to sterling debentures, the following amendments recommended by City Solicitor Pringle were adopted by the City Council last evening.

It will be submitted to the Legislature through the Private Bills Committee, to replace the clauses as printed.

It is proposed to re-draft the thirteenth clause as follows:

(a) "Sterling debentures issued by the corporation under by-law No. 1195 described in a letter or letters signed by the then controller of the corporation, certifying that debentures issued under the said by-law No. 1195 are payable both as to interest and principal at the Bank of Montreal (British North America), Toronto, Ontario.

(b) "Sterling debentures issued by the corporation under by-law No. 1361 described in a letter or letters signed by the then controller of the corporation certifying that debentures issued under the said by-law No. 1361 are payable both as to interest and principal in lawful money at the office of the Bank of Montreal (British North America) in Montreal or Toronto, or in gold coin of the United States of America at the office of the said bank in New York City, at a fixed rate of \$4.86 2/3 per pound sterling."

Prior to the introduction and passage through its preliminary stages of the measure, its objects were briefly explained.

JOHNSON STREET BRIDGE

Edmund P. Kay suggested that when the estimates were taken up next year provision should be made for the filling-in of the street tracks on the roadway section of the Johnson Street bridge with asphaltum or some filling which, if ever the tracks were to be used, could be readily removed.

The engineer was asked to report on the cost and desirability of carrying out the work.

GROUNDING OF WIRES

To the city engineer and solicitor was referred a letter from Vice-president A. T. Goward making application for permission to ground the B.C. Electric Railway's 110 and 220-volt alternating current secondary service wires to the city water mains.

This will comply with the requirements of the Workmen's Compensation Board in the accident prevention regulations.
